The United States and Israel Jun 19 2020 Seminar paper from the year 2009 in the subject Politics - International Politics - Region: USA, grade: 3,0, University of Bonn (Institut f ü r Politische Wissenschaft und Soziologie), course: American Foreign Policy in the Post-Cold War World, language: English, abstract: Following World War Two the world stood at a new beginning. The United States had finally taken its spot as Superpower acting globally and the Jewish people, after the horrors they had experienced under Nazi persecution were finally given the opportunity to return to what they considered their "promised land" to live in their own state. In 1948 the state of Israel was officially founded and with it the entire Middle-East would change. While Imperialism and Colonialism had been dominating the centuries before a new world was about to begin, at the very least for the people in the Middle-East. Since then U.S. foreign policy in the Middle-East has been dominated by the United States' foreign policy towards Israel. The relations between these two nations has often been described as a special friendship, a friendship in which the two nations stick together regardless of right or wrong. This text undertakes the difficult task of examining the origins of this truly special friendship and the implications of this on U.S. foreign policy. One of the central questions to examine is without a doubt whether the United States' support for the state of Israel is based upon a small but powerful Jewish lobby within the United States or whether it is much more so because of fundamental ideals and values shared by both nations and its people. The text points out many fundamental ideologies and ideas about the world and the two nation's role in this world in an attempt to get to the root of this truly unique friendship between the United States and Israel.

Between Two Nations Feb 20 2023 Immigrants come to the United States from all over Latin America in search of better lives. They obtain residency status, find jobs, pay taxes, and they have children who are American citizens by birth; yet decades may go by before they seek citizenship for themselves or become active participants in the American political process. Between Two Nations examines the lack of political participation among Latin American immigrants in the United States to determine why so many remain outside the electoral process. Michael Jones-Correa studied the political practices of first-generation immigrants in New York City's multiethnic borough of Queens. Through intensive interviews and participant observation, he found that immigrant participation was stymied both by lack of encouragement to participate and by the requirement to renounce former citizenship, which raised the fear of never being able to return to the country of origin. The hesitation to naturalize as American citizens can extend over decades, leaving immigrants adrift in a political limbo. Between Two Nations is the first qualitative study of how new immigrants assimilate into American political life. Jones-Correa reexamines assumptions about Latino politics and the diversity of Latino populations in the United States, about the role of informal politics in immigrant communities, and about gender differences in approaches to political activity.

The State of American Politics Dec 14 2019 Election 2000: Aberration or paradigm? The essays in this innovative volume combining scholarly and journalistic views, seek to place the extraordinary events of the 2000 presidential election into context with the trends of electoral politics before and after. Originally presented as a series of public lectures at Oxford University, this volume benefits from an international perspective, a stellar lineup of contributors, and a remarkably cohesive analysis that lays the election results (and thus, the current state of American politics) at the feet of a persistent American cultural divide. Sybil, or the Two Nations Dec 06 2021 "His portrait of life in a grim, northern manufacturing town is vivid and memorable . . . Without Disraeli, Charles Dickens might not have written *Hard Times*." —The Guardian Charles Egremont, the younger brother of an English earl, was brought up in the enjoyment of every comfort and luxury that refinement could devise and wealth furnish. And even though enjoyment, not ambition, seems the principle of his existence, he is blessed with a generous spirit and tender heart. But his quaint, rural village hides a terrible truth: a miserable population of workers, victims of penury and disease. Yearning to learn more about their plight, Egremont poses as a reporter. He comes in contact with the beautiful and serene Sybil Gerard, the daughter of a factory worker. And as his brother tries to set up an arranged marriage for him, Egremont finds that his heart belongs to Sybil. Her caring spirit opens up horizons for him, allowing him to clearly see the harm and misery caused by a divided England. A scathing portrait of the dichotomy of industrialized English society, *Sybil, or the Two Nations* "is both an upper-class romance and a political manifesto set against the backdrop of the Chartist movement" (The Victorian Web).

Mapping the Nation Jan 27 2021 In nearly two decades since Samuel P. Huntington proposed his influential and troubling 'clash of civilizations' thesis, nationalism has only continued to puzzle and frustrate commentators, policy analysts, and political theorists. No consensus exists concerning its identity, genesis, or future. Are we reverting to the petty nationalisms of the nineteenth century or evolving into a globalized, supranational world? Has the nation-state outlived its usefulness and exhausted its progressive and emancipatory role? Opening with powerful statements by Lord Acton and Otto Bauer—the classic liberal and socialist positions—*Mapping the Nation* presents a wealth of thought on this issue: the debate between Ernest Gellner and Miroslav Hroch; Gopal Balakrishnan's critique of Benedict Anderson's seminal *Imagined Communities*; Partha Chatterjee on the limitations of the Enlightenment approach to nationhood; and contributions from Michael Mann, Eric Hobsbawm, Tom Nairn, and Jürgen Habermas.

The Koreas Jul 21 2020 What history, pop culture, and diaspora can teach us about North and South Korea today. Korea is one of the last divided countries in the world. Twins born of the Cold War, one is vilified as an isolated, impoverished, time-warped state with an abysmal human rights record and a reclusive leader who perennially threatens global security with his clandestine nuclear weapons program. The other is lauded as a thriving democratic and capitalist state with the thirteenth largest economy in the world and a model for developing countries to emulate. In *The Koreas*, Theodore Jun Yoo provides a compelling gateway to understanding the divergent developments of contemporary North and South Korea. In contrast to standard histories, Yoo examines the unique qualities of the Korean diaspora experience, challenging the master narratives of national culture, homogeneity, belongingness, and identity. This book draws from the latest research to present a decidedly demythologized history, with chapters focusing on feature stories that capture the key issues of the day as they affect popular culture and everyday life. *The Koreas* will be indispensable to any historian, armchair or otherwise, in need of a discerning and reliable guide to the region.

Palestine-Israel A Just Plan for Permanent Peace Nov 05 2021 Introduction The basic obligations of a state towards its nation(s) are to provide Justice, control of powers - of organizations or individuals - peace, advancement of understanding - including science - and economy. Freedom, although essential, is secondary and a consequence of justice and control of powers. Since its creation in 1948, Israel under Zionism - Jewish Nationalism by reliance on international power(s) - has become a state of "abuse of powers, inherited from world powers", a "place of anti-humanity acts, against the humane formal principles that it was founded on", and a

prophet of "transfer - forced migration - of the nations who helped its people to be transferred" in the region. In short, an inconsistency in the consistent humanity that arose from that region. There is a new enlightenment in the world, however, due to post era realities of the events: "end of the cold war", "fall of the Soviet Union", "Christian revolution in Poland", "Islamic revolution in Iran", "uprisings in Islamic world such as Intifada - uprising of Palestinians - and rise of Al-Qaeda", "defeat of Israel by Hesbollah in Lebanon" and "re-evaluation of South-American and African countries of their political and economical situations", on one hand, and "catastrophes of war in Iraq and the military assault on Gaza Strip" on the other hand. Based on this enlightenment, the people of the world adhere to: (i) Demand for maintaining the holy land - land of prophets - as a sacred region for all three great religions of Judaism, Christianity and Islam that have deep historical roots in the region, by reliance on their practical objectives - which are peace and justice for mankind - and not on their subjective theological Ideas - due to interpretations which may be wrong, or unacceptable to the majority of the faithful - for unification of humanity, to promote peace and humanity justice around the world dominated by these three religions, on one hand, and to prevent disastrous events such as crusade wars or dominance by world powers such as Roman Empire, on the other hand; (ii) Remove the "threat to the world peace" and the "strategy of human transfer" in the Middle East, created by the dominant secular Zionist Ideology that exploits Judaism and Christianity under the unfounded theology of Dispensationalism of John Nelson Darby - devised before 1917 in Great Britain and presumed to be a basis for the Balfour declaration in 1917; (iii) Speak in a unified religious basis that the problem of Palestinian and Israelis can not be solved by ignoring the atrocities of Israeli government towards people of Palestine - by killing them purposefully as a result of strategy of transfer, looking at them inhumanely, and using the historic anti-humanity tactics of the king Herod (around 18 BCE) who killed and enslaved even Jews for the abuse of Roman Empire, against them - and instead obligate it to choose the humane tactics of Moses; And on the spectrum of power, require the United States - as a Christian Country - to choose between Roman Empire Ideas and the Jesus' Ideas of humanity in its foreign policies. The rights of Palestinians in all aspects should be realized as justice suggests, and not as the power imposes. It is time for the people of the world to re-negotiate the establishment of Israel, on the basis of the principles promised to the nations of the world in 1947 and 1948. In this re- negotiation, the major goal must be the creation of a political system in the present state of Israel that guarantees independence of nations, equal rights of all nations, peace and humanity justice between the nations, and ends the suffering of people of Palestine by abusive power of Zionists. This book - based on the beliefs of it's author in a humane and just way to resolve the conflict in the Middle East - suggests a bi-national Federal system for a state consisting of nations of Palestinians - Moslem or Christians - and Jews, under provision

Sybil Aug 22 2020 Sybil Benjamin Disraeli - Sybil, or The Two Nations is one of the finest novels to depict the social problems of class-ridden Victorian England. The book's publication in 1845 created a sensation, for its immediacy and readability brought the plight of the working classes sharply to the attention of the reading public. The 'two nations' of the alternative title are the rich and poor, so disparate in their opportunities and living conditions, and so hostile to each other. that they seem almost to belong to different contries. The gulf between them is given a poignant focus by the central romantic plot concerning the love of Charles Egremont, a member of the landlord class, for Sybil, the poor daughter of a militant Chartist leader.

America Is John the Baptist of Nations Aug 02 2021 Like Jonah this is a story of self-doubt, self-insecurity, fear (not from lack of God's abilities but fear of personal assaults and self-image.) It's a story of a lifetime of seeing life from a bigger perspective and not concerned with individual concerns, like from a national perspective rather than from person to person. It is a story of wanting to share the peace and love experienced but always having the reality that our time as a nation has little time left to be an example for the world. It's a story of picking up bits of information that show why and how America was created by Jesus and why we were created to be a pre-runner for the Kingdom which Christ will establish. As a pre-runner we are the final nation created by the Gentiles to see if we can do what the Israelites were not able to do. It's a story of the two nations with very similar histories and now apparently with very similar endings. You will read how Scripture attempted to save Israel and how it is warning us.

Operation Overflight Jun 12 2022 In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero.

A Land of Two Peoples Mar 17 2020 Theologian, philosopher, and political radical, Martin Buber (1878–1965) was actively committed to a fundamental economic and political reconstruction of society as well as the pursuit of international peace. In his voluminous writings on Arab-Jewish relations in Palestine, Buber united his religious and philosophical teachings with his politics, which he felt were essential to a life of public dialogue and service to God. Collected in A Land of Two Peoples are the private and open letters, addresses, and essays in which Buber advocated binationalism as a solution to the conflict in the Middle East. A committed Zionist, Buber steadfastly articulated the moral necessity for reconciliation and accommodation between the Arabs and Jews. From the Balfour Declaration of November 1917 to his death in 1965, he campaigned passionately for a "one state solution. With the Middle East embroiled in religious and ethnic chaos, A Land of Two Peoples remains as relevant today as it was when it was first published more than twenty years ago. This timely reprint, which includes a new preface by Paul Mendes-Flohr, offers context and depth to current affairs and will be welcomed by those interested in Middle Eastern studies and political theory.

Two Nations Under God Aug 14 2022 Why should you care about Israel? With the war in Iraq, possible engagement in Iran, and an imminent presidential election, U.S. foreign policy in the Middle East and the issue of solidarity with Israel remain important. In Two Nations Under God, American missionary Tom Doyle presents even greater reasons why the U.S. should show concern for Israel. Part one, "Why Should America Care?" is a biblical and historical primer on Israel with fascinating insights into connections between American and Middle East culture. Part two, "Sorting Out the Middle East Maze," presents more facts about Islam and the spiritual roots behind the Middle East conflicts. Part three, "Maximizing the Moment," is a call to action and prayer for the American church regarding the future of Israel. Best of all, readers will learn throughout that, despite the headlines, there is plenty of good news coming from the Middle East. Doyle reports on the increasing number of Muslims converting to Christianity, profiles local disciples and church planters, and provides helpful timelines, comparison charts, photographs, and more to keep every detail concerning Israel in perspective. Endorsements: "Chaos. Carnage. Confusion. For many, that's the modern Middle East. But Tom Doyle gets it. Better yet, he can really explain it. With a pastor's heart, he clearly and concisely describes why God loves the Jews of Israel and her Muslim neighbors, and why we should, too. What's more, Tom reveals how powerfully God is moving in the modern Middle East, and how we can join Him. Two Nations under God is a must read—fascinating, insightful, and deeply thought-provoking. Get one for yourself, and another for your pastor." Joel C. Rosenberg, New York Times best-selling author of Epicenter: Why the Current Rumbles in the Middle East Will Change Your Future

The Lost Key Apr 17 2020 Dr Soufiani, founder and director of a civil engineering firm in London, is a London University PhD qualified and practising civil and environment engineer. He was researcher at University of London, research assistant at University of East London, and lecturer at Iran University of Science & Technology. Soufianis passion about Persian literature has steered him to over ten years of extensive research with a great Persian philosopher, Manuchehr Jamali. Jamali has managed to open up many incredible doors to him in comprehending Persian literature to its true meaning of values, love, unity, and dignity. Soufianis understanding of Eastern and Western cultures has given him a great leverage in his exploration of Persian literature in comparison with Western civilization and the lack of democracy in the Middle East. With this book, he highlights Persian literature as an invaluable asset and the lost key in opening the lock of the declining morality in our modern world and the absence of democracy in the Middle East. The world must sincerely assist in exploration of this nations literature for the sake of morality. The Middle East must explore and use her own invaluable potential rich literature to rise and fly from her own ashes to establish the ethical society that will give them the tools for building and establishing the foundation of a democratic system. Many Persian poems have been translated throughout this book to highlight the core values of beautiful Persian romantic and humanistic culture.

Two Nations Indivisible Dec 18 2022 Examines the political, economic, and social transformation Mexico has undergone in recent decades, and argues that the United States' antagonistic policy toward the nation is doing more harm than good.

America's Youngest Ambassador Apr 10 2022 In 1982, amid the nuclear paranoia that engulfed the US and the Soviet Union, Samantha Smith, a fifth grader from Manchester, Maine, wrote a letter to the Kremlin asking the Soviet leader if he was going to start a war. When Pravda, the biggest Soviet newspaper, published her letter—and Samantha received an unprecedented invitation to visit the Soviet Union —her family embarked on a historic journey that helped transform the hearts and minds of two nations on a collision course. Today, a nuclear war seems like a possibility once again. The story of a young American girl's letter to the Soviet leader and her innocent curiosity about the other side of the Iron Curtain holds an important lesson for every American: to never stop questioning the status quo, and to recognize that the responsibility for the preservation of peace is not only the purveyance of the government. America's Youngest Ambassador provides insights into a forgotten era and has an important message for young people who strive to be more involved in facilitating change, both locally and worldwide. Juxtaposing Samantha's narrative with that of her own childhood in the Soviet Union in the 1980s, Lena Nelson explores the consequences of government propaganda on both sides of the ocean and reveals how Samantha Smith's journey in the summer of 1983 helped melt the hearts of the Soviets and thaw the ice of the Cold War. Drawing on interviews conducted in both the US and Russia with key players in the events of those days, among them Samantha's mother Jane, Nelson blends storytelling, anecdotes, and analysis of Soviet-American relations to tell the story of this unprecedented moment in history.

Tales of Two Americas Oct 24 2020 Thirty-six major contemporary writers examine life in a deeply divided America—including Anthony Doerr, Ann Patchett, Roxane Gay, Rebecca Solnit, Hector Tobar, Joyce Carol Oates, Edwidge Danticat, Richard Russo, Eula Bliss, Karen Russell, and many more America is broken. You don't need a fistful of statistics to know this. Visit any city, and evidence of our shattered social compact will present itself. From Appalachia to the Rust Belt and down to rural Texas, the gap between the wealthiest and the poorest stretches to unimaginable chasms. Whether the cause of this inequality is systemic injustice, the entrenchment of racism in our culture, the long war on drugs, or immigration policies, it endangers not only the American Dream but our very lives. In *Tales of Two Americas*, some of the literary world's most exciting writers look beyond numbers and wages to convey what it feels like to live in this divided nation. Their extraordinarily powerful stories, essays, and poems demonstrate how boundaries break down when experiences are shared, and that in sharing our stories we can help to alleviate a suffering that touches so many people.

Mapping the Nation Dec 26 2020 Few political phenomena have proved as confusing or as difficult to comprehend as nationalism. There is no established consensus on its identity, genesis or future. Are we, for example, in the process of being thrust back into a nineteenth-century world of competitive and aggressive great powers and petty nationalisms? Or, rather, are we being flung headlong into a new, globalized and supra-national millennium? Has the nation-state outlived its usefulness and exhausted its progressive and emancipatory role, or has nationalism always been implicated in an exclusivist ethnic and militaristic logic? *Mapping the Nation* seeks to address these and other questions about the nature and destiny of the "national question" in the present epoch. A comprehensive and definitive reader on the subject, with contributions from some of the most significant and stimulating theorists of the nation-state, it presents a wide range of divergent ideas and controversies. Leading off with powerful statements of the classic liberal and socialist positions, by Lord Acton and Otto Bauer, there then follows an historical-sociological debate between the late Ernest Gellner and the Czech historian Miroslav Hroch, the one stressing the connections between nationalism and the transition away from agrarian society, the other emphasizing its variability and real anthropological basis. John Breuilly and Anthony D. Smith, two of the leading British specialists, provide a counterpoint to each other with considerations on the respective importance of political leadership and continuing ethnic communities in the construction of nationalist movements. Gopal Balakrishnan, in a carefully honed critique of Benedict Anderson's seminal *Imagined Communities*, and Partha Chatterjee, from the Subaltern Studies circle, offer crucial insights on the limitations of the Enlightenment approach to nationhood, as do Sylvia Walby and Katherine Verdery with their reflections on the entanglements of nation, gender and identity politics. Sociologist Michael Mann delivers an authoritative refutation of the chatter about the "death of the nation-state." Finally, relating the theoretical questions directly to the politics of our time, renowned historian Eric Hobsbawm, provocative theorist Tom Nairn, and the outstanding political philosopher Jürgen Habermas discuss, with varying degrees of optimism and pessimism, the future of the national project.

Sybil Apr 29 2021 *Sybil* traces the plight of the working classes of England. The "two nations" of its subtitle refers to the huge economic and social gap between the privileged few and the deprived working classes. Disraeli was

interested in dealing with the horrific conditions in which the majority of England's working classes lived — or, what is generally called the Condition of England question. The book is a novel with a thesis — which was meant to create a furor over the squalor that was plaguing England's working class cities.

Handbook of Research on Future Policies and Strategies for Nation Branding Feb 25 2021 By taking corporate marketing concepts and applying it to countries, “nation branding” is a way for these regions to enhance their reputations and project a desired image for international recognition. New modes of publicity and marketing geared towards geographic location fall into this category, leading nation branding to have vast benefits for the economics and societies of countries. New marketing strategies have emerged and are being adopted to consequently brand countries with this purpose of economic growth. By studying these emerging strategies and methods, nations can best develop a desired brand and reputation to foster growth and prosperity. The Handbook of Research on Future Policies and Strategies for Nation Branding discusses how exactly nation branding works to benefit the function and mission of these nations along with showing how nation branding can be used as a strategic asset for the redesign of economic, political, and social characteristics of a country. The chapters outline the given situation of nations and the nature and implications of the brand that is required, measure branding inference, and propose future steps for nation branding. This book is a critical reference source for brand managers, tourism professionals, marketers, advertisers, government officials, travel agencies, academicians, researchers, and students working in the fields of international relations, economics, social sciences, business studies, marketing, and entrepreneurship.

The Map and the Scissors May 19 2020 'You cannot force two nations to live together any more than you can force two people,' he says quietly. Fatima smiles, feeling a slight thrill of victory. 'Divorce.' 'Pakistan.' Two intense, inflexible personalities duel over a question that will decide the fate of millions: one nation-or two? Jinnah, the consummate, ruthlessly analytical gentleman in a tailored suit, starts out sceptical of those who come to his door proposing a 'Land of the Pure', but ends up founding exactly such a country. Gandhi, the religious visionary in homespun khadi, experiments with Truth in his quest for one India-only to witness, in anguish, the bloody birth of two nations. The Map and the Scissors is a novel about the epic origin story of modern South Asia, brought to life by two London-educated lawyers, mirror-image rivals who dreamt the same dream of freedom-in catastrophically incompatible ways.

Friends Or Foes? Oct 16 2022 With Friends or Foes? Norman Saul continues his monumental multivolume magnum opus on U.S.-Russian relations over the course of 200 years. This fourth volume provides the first comprehensive study in any language of an era that shaped the rest of the century and captures the major changes in relations between two nations on the verge of becoming dominant global powers. Among other things, Saul examines the rationale for America's failure to recognize the Soviet government through the early 1930s, analyzing the impact of the Red Scare and the roles of the State Department, Russian migrants, religious groups, and key individuals—like Charles Evans Hughes, Robert Kelley, Herbert Hoover, Boris Skvirsky, Olga Kameneva, and Maxim Litvinov—on the policy process. In addition, he recalls the American Relief Administration's gigantic effort to help Russian peasants and garners new material from American business records on concession arrangements and commerce and on Soviet responses during the first Five Year Plan. He also records travelers' impressions, cultural exchange, and the role of academia in each country—particularly the contribution of Russian émigré scholars to American education and the contributions of American journalists in Russia. Saul also reveals the tendency on both sides to preserve an atmosphere of secrecy, conducting business behind closed doors and rarely on paper. His prodigious research in the Hoover Presidential Library, the Franklin Roosevelt Library, and the Hoover Institution at Stanford University—incorporating overlooked Diplomat Post Records and featuring an interview with George Kennan on his diplomatic role—has yielded a wealth of new insights into what really happened during a period in the history of the relations between the two countries that remains mysterious and controversial. Breaking new ground in diplomatic, economic, social, and cultural history, Saul's book illuminates both the mutual fascination that briefly permitted peaceful coexistence (and eventual alliance) and the ideological battles that ultimately led to the Cold War.

Saving America Nov 12 2019 This book provides an important look at the well-being of the United States of America. It is broken into five parts: a brief history of the frameworks and foundations of our constitutional republic, an analysis of the major changes that occurred in the last fifty years, a look at where the United States of America is now, recommendations for saving America, and a look at what awaits us in the future of our nation. So what is an accurate picture of America today? In the history of the world, only two nations have been founded

entirely upon a monotheistic religion: Israel and the USA. In examining the history of both nations, many parallels are evident; both were settled by those freed from a land of slavery and oppression, both were founded on a set of ideals based upon the rule of law rather than the rule of men (or kings), and both were greatly blessed and soon grew incredibly prosperous. However, after achieving prosperity, both nations became deeply divided between the pagans (or seculars) and those who held to the faith and principles of their founders, especially in the USA. After becoming divided, America lost its place of prominence and is now mocked and ridiculed from within and by all her neighbors. Why must we fight? Why must we win, beyond the need to maintain the trust delivered to us? We have no place left to go. In past times, there were places in the wilderness to flee to. "Give me your tired, your poor, your huddled masses yearning to breathe free . . . I lift my lamp beside the golden door!" Remember those words inscribed on our Statue of Liberty? We came here for many reasons, among which were the many forms of freedom: freedom to work for yourself and your family, not the government; freedom of religion; freedom of expression; freedom from want; etc. Now, there is no undiscovered place on Earth left to go. We as a nation are being pushed toward one of three ultimate endgames: the imposition of a socialist nation, a conservative reversal of the nation at the ballot box, or another civil war. Per the 2016 election, our nation has been given a chance to reverse the socialist movement by electing a conservative populist president with a mandate in Congress. The challenge comes from the fact that socialism has had fifty years to establish itself in our nation. How much can be done in four or eight years to reverse this movement? My fear is that the Trump presidency is being set up by the globalists to usher in a long-overdue economic meltdown that the liberals can then blame on Trump and the Republican Party. The Democrats would then be able to pursue the socialist goal again. The fight to regain our constitutional republic will be difficult, but hope springs eternal. There is also a fourth endgame that could come into play if the socialists maintain control of our country. Liberal socialists, per multiculturalism, open borders, and basic naivety are enabling the Islamification of our country. Europe is lost, but our nation is still savable. "There is a dark cloud looming on the horizon of America. I do not pretend to be able to see beyond the looming dark cloud. I do know that a field of battle is before us. Our young people may not want to die on fields drenched red with blood, but they must battle in the classroom, in the lecture halls, at the ballot box, on Wall Street, in mass media, in the newsrooms, in the hospitals, and in the churches. They must battle at home and abroad and we must help them. We must battle not just for the finances of this nation, but for its soul. What shall be our future? We are coming, potentially, to a crossroad in our nation's history: either socialism, capitalism, or civil war. It may be that we shall end our forefathers' experiment of a constitutional democracy based on a strong religious foundation. Only time and the American people can tell.

In this groundbreaking study, Hacker offers a fresh and disturbing examination of the divisions of color and class in 1990s America.

RSS, School Texts and the Murder of Mahatma Gandhi Sep 22 2020 RSS, School Texts and the Murder of Mahatma Gandhi undertakes the novel experiment of juxtaposing three apparently quite different issues, the nature of the RSS school textbooks, the murder of the Mahatma and the basic ideology of Savarkar and Golwalkar. While deeply delving into all three aspects, it brings out the deep connection between them. The book, which brings out the basic ideological underpinnings of the Hindu Communal Project, is divided into three parts. Part I discusses how this ideology is propagated among young impressionable minds through school textbooks. Part II studies the role of the Sangh combine in the murder of Mahatma Gandhi and Part III analyses the basic elements of the Hindu communal ideology, as propounded by some of its founders like Savarkar and Golwalkar. The book brings home to us in a dramatic manner the great threat communalism poses to our society, thus making it a must-read for the general educated reader, including politicians, political workers, social activists and journalists.
