The following poems are prayers and songs. Except for Cuba Errante, which is a plea to the Mother of God to intercede for the difficult plight of Cubans both at home and abroad-- these songs are meditations based on biblical passages and themes. I call them poetic icons because, like the ancient pictorial icons of our Judeo-Christian heritage, the intent of these poems is also, first, to focus the attention of the reader into the scene that is being depicted, in order to see the presence of God at work in that particular scene and in its characters; second, the intent is to help readers catch a glimpse of the divine presence and warmth that illuminates each particular scene. Third, as is the case with sacred pictorial icons, it is also the intent of these poems to help readers in the present time identify with the struggles of those ancient biblical characters, and with the way the Spirit of God is still at work now in each of the readers that contemplate these scenes. I was inspired to write some of these poems in English; others, in Spanish. In some cases, I

made the effort to make the poems available in both languages. Thank you for your patience with the bilingual nature of this collection. Is there music to these songs? Yes, and it is our hope to make it available to you in an ensuing publication. Thank you again! Excerpt from The Song of Stradella: And Other Songs IN fair Virginia's heart there is a wood Where still the deer in careless freedom roams; All night the owl, from 'neath his friar hood, Daunts with grim stare, the ever-wanton gnomes. Words and music to forty-one folk songs. Colorful, energetic illustrations add a rollicking bounce to this interpretation of the favorite song. W. H. Auden once defined light verse as the kind that is written by poets who are democratically in tune with their audience and whose language is straightforward and close to general speech. Given that definition, the 123 poems in this collection all qualify; they are as accessible as popular songs yet have the wisdom and profundity of the greatest poetry. As I Walked Out One Evening contains some of Auden's most memorable verse: "Now Through the Night's Caressing Grip," "Lullaby: Lay your Sleeping Head, My Love," "Under Which Lyre," and "Funeral Blues." Alongside them are less familiar poems, including seventeen that have never before appeared in book form. Here, among toasts, ballads, limericks, and even a foxtrot, are "Song: The Chimney Sweepers," a jaunty evocation of love, and the hilarious satire "Letter to Lord Byron." By turns lyrical, tender, sardonic, courtly, and risqué, As I Walked Out One Evening is Auden at his most irresistible and affecting. Mr Bandicoot and Other Tales is a uniquely Australian interpretation of nursery rhymes for kids. Available as a book and CD set and coupled with

wonderfully whimsical illustrations, it's a package that can be read, sung, listened to and laughed with, all at once! Written 50 years ago by Anne Lawson, the songs were created to entertain her children while she worked. Many of the collection of 27 nursery rhymes are centred round and about the family farm situated between Sydney and Wollongong on Highway No. 1 [Princes Highway]. They feature fantastic tales of the small adventures readers can undertake every day, from meeting Mr Bandicoot himself to exploring by the sea, or holding onto a kite dancing in the sky to a talking tooth brush called Tommy. In 2008 at a family get together for Mother's Day, Anne's children put on an impromptu concert featuring the songs and found themselves debating the lyrics of one of the songs. Anne was moved to spend some time finding the book she had made for her children so long ago. In the ensuing debate a CD was suggested and then a book. So Anne began working with Kate Rowe (winner of the Children's Category of the John Lennon Songwriters Award in 2009) to breathe new life into the songs, which Kate arranged beautifully. By Christmas 2008 Kate performed and recorded the tracks, along with John Stuart at Sound Heaven Studios in the Blue Mountains, NSW. Nan's close friends Hugo and Heidi created the dreamy illustrations. The book was launched in March 2010 at the Blue Mountains Folk Festival. 'Mr Bandicoot and Other Tales' comes packaged with a CD of the songs given a contemporary voice by Kate's musical talents. This vintage book contains a collection of Appalachian songs complete with lyrics and musical scores. Appalachian music refers to music from the Appalachia region of the Eastern United States. Deriving from various European and African influences, it was a key influence on early Old-time music, country music, and bluegrass, and had a significant influence on the American folk music revival during the 1960s. Contents include: "The Battle of Jericho", "Little Innocent Lamb", "Humble", "De Animals A-comin'", "Sister Mary Wore Three Lengths of Chain", "Keep in the Middle of the Road", "Roll, Jordon, Roll", "Ol' Ark's A-movin'", "Steel Away", "I Got Shoes", "Ready When He Comes", etc. Many vintage books such as this are becoming increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in a modern, high-

quality edition complete with the original text and artwork. "Betty Garrett's memoir is a tale of grace under pressure. groundbreaking scientific quest over five continents to study our modern dinosaurs—that ends up changing a life, as well as our understanding about crocodiles and their relatives. A born naturalist and a fearless traveler, Vladimir Dinets wrote travel guides, conducted field research, and lived a couple of lives before he was accepted into the PhD program in zoology at the University of Miami. He thought crocodiles were a dead-end research topic—survivors from the age of the dinosaurs but not much else—until he witnessed groups of up to seventy alligators performing mating choruses that included infrasound vibrations—a form of communication extremely rare in nature—and a “dance” unknown in the scientific literature but that resembled a scene from Jurassic Park. To prove his thesis about the language of crocodiles, he spent the next six years traveling around the world on shoestring budgets and in extreme circumstances, studying almost every living species. At the same time, as a man desiring companionship in life, he sought love. With adventures on five continents, *Dragon Songs* is his account of this quest. It includes an escape from a boiling lava lake in the Afar Desert, being chased up a tree by a tiger in India, hitching a ride with a cocaine smuggler in Bolivia, and diving with giant Greenland sharks—all in the name of studying crocodiles, among which he routinely paddled in his inflatable kayak. Of course, not everything went according to plan. But, in the end, his ground-breaking research helped change the field. And during the course of his adventures, he met and courted his future wife. "One of the finest works to come out in recent years on cowboy songs, in addition to being the first good collection of the cowboy's bawdy material. . . . A must for anyone who is a student of cowboy music--or anyone who just likes the sound of dirty subject matter rhyming." -- Hal Cannon, *Journal of Country Music* "A brave and honest step toward increasing our understanding of what cowboys really sing." -- Bob Bovee, *Old Time Herald* "A thorough piece of scholarship and collectanea and a valuable, welcome addition to cowboy song literature." -- Keith Cunningham, *Mid-America Folklore* "Logsdon has written the book with a scholar's attention to detail. But what shows through the scholarship is the collector's enthusiasm for the material. . . . A superb job in a difficult area." -- Angus Kress Gillespie, *Journal of American History* "A major contribution to the folklore and popular culture, history, and social psychology of American cowboy culture." -- Kenneth S. Goldstein, former president, *American Folklore Society* The Dred Scott case is the most notorious example of slaves suing for freedom. Most examinations of the case focus on its notorious verdict, and the repercussions that the decision set off—especially the worsening of the sectional crisis that would eventually lead to the Civil War—were extreme. In conventional assessment, a slave losing a lawsuit against his master seems unremarkable. But in fact, that case was just one of many freedom suits brought by slaves in the antebellum period; an example of slaves working within the confines of the U.S. legal system (and defying

their masters in the process) in an attempt to win the ultimate prize: their freedom. And until Dred Scott, the St. Louis courts adhered to the rule of law to serve justice by recognizing the legal rights of the least well-off. For over a decade, legal scholar Lea VanderVelde has been building and examining a collection of more than 300 newly discovered freedom suits in St. Louis. In *Redemption Songs*, VanderVelde describes twelve of these never-before analyzed cases in close detail. Through these remarkable accounts, she takes readers beyond the narrative of the Dred Scott case to weave a diverse tapestry of freedom suits and slave lives on the frontier. By grounding this research in St. Louis, a city defined by the Antebellum frontier, VanderVelde reveals the unique circumstances surrounding the institution of slavery in westward expansion. Her investigation shows the enormous degree of variation among the individual litigants in the lives that lead to their decision to file suit for freedom. Although Dred Scott's loss is the most widely remembered, over 100 of the 300 St. Louis cases that went to court resulted in the plaintiff's emancipation. Beyond the successful outcomes, the very existence of these freedom suits helped to reshape the parameters of American slavery in the nation's expansion. Thanks to VanderVelde's thorough and original research, we can hear for the first time the vivid stories of a seemingly powerless group who chose to use a legal system that was so often arrayed against them in their fight for freedom from slavery. Before she wrote her Pulitzer Prize-winning bestseller *The Shipping News*, E. Annie Proulx was already producing some of the finest short fiction in the country. Here are her collected stories, including two new works never before anthologized. These stories reverberate with rural tradition, the rites of nature, and the rituals of small-town life. The country is blue-collar New England; the characters are native families and the dispossessed working class, whose heritage is challenged by the neorural bourgeoisie from the city; and the themes are as elemental as the landscape: revenge, malice, greed, passion. Told with skill and profundity and crafted by a master storyteller, these are lean, tough tales of an extraordinary place and its people. Popular songs by a Tin Pan Alley composer include -Ho Hum!, - -

You Ought a Be in Pictures, - -The Night is Young and You're So Beautiful.- Her piano works include *Jazz Nocturne* and others. Roy Nathanson (Piano/Vocal/Guitar Songbook). 25 uplifting songs for piano, voice and guitar, including "Hallelujah" and "Imagine" plus: Beautiful Day \* Circle of Life \* Don't Stop Believin' \* Hero \* One Moment in Time \* Stronger (What Doesn't Kill You) \* True Colors \* Walking on Sunshine \* The Wind Beneath My Wings \* You Raise Me Up \* and more. This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society, and how these factors have influenced the renewal of values-based education and practices in school music education in China. The authoritative story of the headline-making discovery of gravitational waves—by an eminent theoretical astrophysicist and award-winning writer. From the author of *How the Universe Got Its Spots* and *A Madman Dreams of Turing Machines*, the epic story of the scientific campaign to record the soundtrack of our universe. Black holes are dark. That is their essence. When black holes collide, they will do so unilluminated. Yet the black hole collision is an event more powerful than any since the origin of the universe. The profusion of energy will emanate as waves in the shape of spacetime: gravitational waves. No telescope will ever record the event; instead, the only evidence would be the sound of spacetime ringing. In 1916, Einstein predicted the existence of gravitational waves, his top priority after he proposed his theory of curved spacetime. One century later, we are recording the first sounds from space, the soundtrack to accompany astronomy’s silent movie. In *Black Hole Blues and Other Songs from Outer Space*, Janna Levin recounts the fascinating story of the obsessions, the aspirations, and the trials of the scientists who embarked on an arduous, fifty-year endeavor to capture these elusive waves. An experimental ambition that began as an amusing thought experiment, a mad idea, became the object of fixation for the original architects—Rai Weiss, Kip Thorne, and Ron

Drever. Striving to make the ambition a reality, the original three gradually accumulated an international team of hundreds. As this book was written, two massive instruments of remarkably delicate sensitivity were brought to advanced capability. As the book draws to a close, five decades after the experimental ambition began, the team races to intercept a wisp of a sound with two colossal machines, hoping to succeed in time for the centenary of Einstein’s most radical idea. Janna Levin’s absorbing account of the surprises, disappointments, achievements, and risks in this unfolding story offers a portrait of modern science that is unlike anything we’ve seen before. Written while Stevenson was traveling across Scotland and California, *Songs of Travel and Other Verses* was a popular collection of poetry upon its publication in 1896, two years after Stevenson's death. The verses became more popular in 1901 when Ralph Vaughn Williams set them to music in his *Songs of Travel*. In this collection of diverse poetic forms and styles, rhymed and unrhymed, the reader will find sonnets and cinquains, doggerel and limericks. The traditional sonnet in various rhyme schemes comprise most of the book. They include little songs of love, heartache, happiness and remembrance. Some of the more than two hundred verses focus on social issues and interpersonal relations. Others offer comments on life’s defeats and victories or reflections on the beauties of serene nature. And in the pages of this book, from time to time, one will find the glow of light humor.
