Creative Lives and Works: Adrian C. Mayer, M.N. Srinivas, André Béteille and Johnathan Parry is a collection of interviews conducted by one of England's leading social anthropologists and historians, Professor Alan Macfarlane. Filmed over a period of 40 years, the four conversations in this volume, are part of a larger set of interviews that cut across various disciplines, from the social sciences, the sciences to the performing and visual arts. The current volume, on four of the world's foremost social anthropologists and sociologists, who have been closely associated with the British anthropological tradition, is the third in the series of several such books. These conversations focus primarily on fieldwork experience in India and how new dimensions and interpretations were added to the discipline of sociology and social anthropology as more and more primitive cultures and ancient civilizations were studied. This book brings out the diversity of the Indian subcontinent and its people through its engaging conversations and occasional anecdotes. Immensely riveting as conversations, this collection gives one a flavour of the many different cultures that coexist in a vast country like India, often with no knowledge of each other's existence while de-jargonizing complex sociological concepts. The book will be of enormous value not just to those interested in the subject of Sociology, Social Anthropology and Ethnography, but also those with an avid interest in History, Culture Studies as well as those with an interest in learning about other societies. Please note: This title is co-published with Social Science Press, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka. ... Strikes first blood in its league to present an inspirational account of journeys through North East India and its people, culture and lifestyles. BHAICHUNG BHUTIA International soccer player, recipient of Arjuna and Padma Shri Awards, and politician An absolutely awesome account of a traveler telling the true picture of this beautiful region of our country. Thanks for highlighting the beauty of our people too. Great work and a great book. L. SARITA DEVI Two-time World title and five-time Asian titles holder in women's boxing, and recipient of Arjuna Award Backpacking North East India packs a powerful punch. If you think of travel in this unexplored land, pick up a copy today. M.C. MARY KOM Six world boxing titles, Olympic medallist, Asian champion, and recipient of Padma Bhushan award Brisk and colourful, peppered with personal anecdotes of bandhs, reflections on politics and social values, drawn upon wandering on the highlands and low plains of the states of the North East, Abhijeet and Navita Deshpande pack a lot literally into their rucksacks for this backpacker's manual which should be a useful guide on not just where to go and what to do, what not do and where not to venture but also what to keep your eyes and ears open for, in these lands of many stories, ethnic groups and magical

experiences, the warmth of ordinary people and the challenges of daily life. SANJOY HAZARIKA Director and founder, Centre for North East Studies and Policy Research (C-NES), JMI; innovator of boat clinics in Assam; eminent journalist; independent filmmaker; author of many books including Strangers of the Mist This book analyses India's relations with the five Eastern neighbors and implications for development in the border states. This book presents the achievements made in solar energy and prospects in achieving solar potential in India. It covers the historical perspectives, innovations and myriad applications of solar energy in its different forms. The book discusses solar devices and covers both solar photovoltaics and solar thermal energy and includes both heat and electricity applications. Solar policies in India, solar research, technologies, large scale adoption as well as future trends are also discussed. This book will be useful for researchers and professionals with interests in technological, economical and policy developments in solar energy driven power industry. This volumes, Jaintia Hills: A Meghalaya Tribe - its Environment, Land and People is an important study of a tribal population in transition. They are on international border with Bangladesh. A trans-border culture is a two way traffic. Jaintia Hills, a part of the State of Meghalaya, have immense possibility of development. It has growing trans-border trade relations with neighbouring Bangladesh in respect of rich mineral resources, particularly of coal and lime stone. The volume containing twenty three articles by eminent social scientists and scientists belonging to agriculture, demography and environmental science adopting a multi- disciplinary approach, is an important contribution to tribal study. Climate change knows no boundaries and its cost must be borne by all earthlings. While the technologically advanced and developed countries are better prepared for responding to climate change, it is the developing countries that are the most vulnerable to climate change impacts because they have fewer resources to adapt politically, socially, technologically and financially. Climate change is, thus, a matter of moral and cultural ethics. Climate change adaptation methods need to accommodate traditional environmental knowledge and practices of different indigenous cultures. This book explores the ability to concerted global action and mechanisms to enable developing countries to adapt to the effects of climate change that are happening now and which will worsen in the future. This book offers a comprehensive account of India's four biodiversity hotspots: the Himalaya, Indo-Burma, Western Ghats and Sri Lanka and Andaman and Nicobar Islands. With a focus on tropical rainforests, it includes more than 30 chapters covering different vertebrate fauna e.g. fishes, amphibians, reptiles, birds, and mammals, as well as topics such as conservation and management aspects. Written by experts in the field of biodiversity conservation and management, it offers ample

new insights into a number of subjects related to the faunal communities of tropical forest ecosystems, providing a valuable resource for conservationists and researchers in the field of flora and fauna diversity. This Data Note describes the trends for a set of key nutrition and health outcomes, determinants, and coverage of interventions. The findings here are based on data from the National Family Health Survey (NFHS) 3 (2005-2006), 4 (2015-2016), and 5 (2019-2020). In addition to standard prevalence-based analyses, this Data Note includes headcount-based analyses aligned to the POSHAN Abhiyaan monitoring framework and uses data from NFHS-5 to provide evidence that helps identify priority districts and number of districts in the state with public health concern as per the WHO guidelines. The Data Note includes a color-coded dashboard to compare the coverage of nutrition interventions across all the districts in the state. It concludes with key takeaways for children, women, and men and identifies areas where the state has potential to improve.

The book "Guide for Intelligence Bureau Assistant Central Intelligence Officer Grade-II/ Executive (Tier - I) Exam book ' covers 4 comprehensive sections on: Quantitative Aptitude, Numerical/Analytical/ Logical Ability & Reasoning, English language and General awareness/ General studies. # The book also covers 4 past papers (2012, 2013, 2015, 2017 & 2021).The book covers detailed theory along with solved examples and short-cuts tricks to solve problems. # The General Awareness/ General Studies section (thoroughly updated) covers questions on Current Affairs, History, Geography, Politics, Economic and General Science etc. # The Numerical/ Analytical/ Logical Ability & Reasoning section includes Verbal and Non-Verbal Reasoning. # The book provides 3000+ questions with solutions to the exercise have been provided at the end of each Chapter. # 100% Errorless solutions provided.

Meghalaya Current Affairs Yearbook 2020 1. Introduction of Meghalaya (Static GK) 2. Current Affairs (Whole Year) 3. Latest Govt. Schemes Meghalaya Current Affairs Yearbook 2020, Useful for competitive exams. This book deals with the relevant features and topics of Current affairs of State in a systematic and comprehensive manner by the use of simple and concise language for easy and quick understanding. We hope that the readers will find this book user friendly and helpful in preparation of their examinations. I look forward to have the views, comment, suggestions and criticism from readers which would definitely help in further improvement of the Book. I would like to heartfelt thanks to all my team members for their efforts to prepare this book.

Meghalaya GK Yearbook 2020 Meghalaya Current Affairs/General Knowledge Yearbook 2020 has become an integral part of a lot of entrance exams being conducted at the graduate and undergraduate levels. It is very important for students to remain updated on the current happenings in their surroundings

especially those that are important from the perspective of state. Current Affairs Yearbook 2020, a thoroughly revised, reorganised, updated and ENLARGED edition, presents a comprehensive study of all the sections that are covered under the subject of General Knowledge. The Yearbook 2020 provides the latest information & most authentic data reference material on Current Affairs and General Knowledge. It has specially been designed to cater to aspirants of various competitive exams across the state. The material has been written in a lucid language and prepared as per the requirements of the various competitive exams. Meghalaya General Knowledge 2020 Current Affairs consists of latest news/ information about Meghalaya based on The Hindu, Indian Express, PIB, Yojana, People, Events, Ideas and Issues across the Social, Economic & Political climate of the State. Meghalaya GK Yearbook 2020 Why should you buy this Book? Latest and Authentic information must for All Competitive Exams – The Mega Current Affairs Yearbook 2020 provides the latest information & most authentic data reference material on current Affairs and General Knowledge. It has specially been designed to cater to aspirants of various competitive exams like Civil services, and Other exams across the Meghalaya State. Student-Friendly Presentation – The material has been given in bulleted points wherever necessary to make the content easy to grasp. The book has ample tabular charts, mind Maps, Graphic Illustrations which further makes the learning process flexible and interesting. Must Have for Multiple Reasons: The Current Affairs Mega Yearbook 2020 is a Must-Have book for all kinds of Objective & Descriptive Tests, Essay Writing and Group Discussions & Personal Interviews, The Meghalaya General Knowledge section provides crisp and to-the-point information in Geography, History, Polity, Economy, General Science, etc. which otherwise could be very exhaustive. Meghalaya GK Yearbook 2020 Best wishes for your exams!! This book is very important for those who are preparing for various competitive exams like mostly like Northeastern states Public Service Commission, Railway, Agricultural exam, Court, Clerk, and many more various departmental examinations. It covers all the topics which are important according to the exam format and new examination pattern. This book is made according to syllabus and maintain the sequence of the syllabus, for that every student will be able to understand clearly. Previous years question paper is also included at the last of the States, and also attached the examination point of view questions which are mostly expected to come in the examination. Simple language, mostly table format, which are very preferable to memorized. I hope one who is reading this book will be able to understand and become successful. BEST WISHES TO ALL THANK YOU Traditional institutions in the Khasi-Jaintia society are “living organisms” which have existed for centuries and

internally evolved from one phase to another. Despite having come into contact with newer and more modern forms of administration, they continue to exist, backed by local public opinion that has called for their continuity amidst diminishing responsibility and utility. This collection of papers explores the landscapes of traditional institutions that exist in the present Khasi and Jaintia Hills in Meghalaya, India. The chapters blend oral tradition with historical records and available sources from secondary literature. They examine the interplay of power and functions between the constitutional authorities, such as the state government, and the Autonomous District Councils and traditional authorities represented by the traditional institutions. The book 'The Bleeding of an Underdog' is an Autobiography. It is based on my personal life encounters and has no intention of hurting the sentiments of any readers or anyone mentioned in the book. The very idea of writing this Autobiography is not to brag about my Life but to kindle hope amidst miseries and troubles in Life. Since childhood, I have been running from every possible problem as much as possible, but problems keep chasing me tirelessly. Some problems are self-created, others unwanted collisions. I was tired and weak running. There are even incidents that I felt enough! Is enough! DEAD is the only solution. But deep down, I could hear a VOICE which said have HOPE, PRAY and FIGHT BACK; you will overcome. Do not run but FIGHT BACK! So I decided to fight back against any situation I might encounter in my Life. Not Giving Up is the Key. This book provides an understanding of the challenges in Northeast India in terms of the nature of flows and ruptures in the daily lives of people. It brings together multiple and interconnected issues of identity, development, environment, migration, land alienation and policy impacts to the forefront. Northeast India's history is affected both by internal dynamic processes, as are its linkages with adjoining countries, marked by a fluid movement of people and goods across porous borders. The book explores how the region has emerged as a resource frontier for the global markets, yet its resource mobilization has led to disparity within the region. The volume discusses key themes concerning the region such as the processes of development and people's resistance; underdevelopment in the peripheral areas; resource flow and conflict; community response and local agency; state and customary practices; politics of land and citizenship; development-induced dispossession; human mobility, immigration and conflict; the notion of "outsiders"; inter-state border conflict; and spatial connections. Rich in empirical data, the volume will be relevant and useful for students and researchers of development studies, Northeast India studies, sociology, political science, border and migration studies, public policy, peace and conflict studies, as well as practitioners and policymakers. Dr. B.R. Ambedkar's influence has overarching impact on the making of Modern India. However, his

legacy was sidelined and subjected to institutional neglect. The book is a prism that reflects upon the multitude of contributions of Dr. Babasaheb Ambedkar in the nation building process. Many of his ideas and interventions continue to define our governance paradigm, especially with PM Narendra Modi at the helm ensuring that his legacy is revived. The book studies the points of intersection of India's development story under Prime Minister Narendra Modi and the ideals of Babasaheb. It also highlights the striking parallels between the two towering personalities that succeeded against all odds and worked to dismantle stifling social structures that they themselves experienced from close quarters.

**Water Resources: Crisis, Contamination and Management, Volume Five** presents new and updated material and guidance on key procedures and protocols, along with timely topics such as climate change and integrated water resources management. The book is divided into three key sections which focus on sustainable development and management of water resources and techniques and methods for improving water use efficiency, the quality of water resources, migration of pollutant sources, geochemical processes, groundwater depletion, and a consolidated and coordinated approach to find the solution to water resource issues. Case studies illustrate key points. This book presents a comprehensive overview of the field and is relevant for students, professors, scholars, researchers and consultants in the fields of water resources, civil engineering, environmental engineering and hydrology. Provides an overview of the current status of water resources utilization, the likely scenario of future demands, and the advantages and disadvantages of systems techniques. Includes numerous examples and real-world case studies. Presents the roles of remote sensing and GIS in solving the water resource crisis. This book incorporates papers describing new and exciting results and timely reviews integrating an immense amount of knowledge in the field.

**Frontiers of Earth Science**, the inter-and intra-disciplinary volume sets out to imbibe sixty selectively invited research papers from distinguished earth scientists. The volume incorporates sections on Mineral deposits, Climate Change and Environment, Remote Sensing, Stratigraphy and Palaeobiology, Petrology, Groundwater and Seismology and Tectonics. The book is an everlasting and invaluable document and reference for academia, industry and planners specialized in the field of the Earth Science and for those who need updated information of current research. The volume will also be equally significant for advance level students and research scholars throughout the world. This book presents selected papers from the 7th International Conference on Water and Flood Management, with a special focus on Water Security under Climate Change, held in Dhaka, Bangladesh in March 2019. The biennial conference is organized by Institute of Water and Flood Management of Bangladesh

University of Engineering and Technology. The recent decades have experienced more frequent natural calamities and it is believed that climate change is an important driving factor for such hazards. Each part of the hydrological cycle is affected by global climate change. Moreover, increasing population and economic activities are posing a bigger threat to water sources. To ensure sustainable livelihoods, safeguard ecosystem services, and enhance socio-economic development, water security needs to be investigated widely in a global and regional context. Global society has simultaneously faced several unprecedented health, social, and economic challenges. Countries need to recover economic growth quickly, boost productivity and job creation, invest in smart healthcare systems and services, and work toward a climate-neutral and circular economy. The Handbook of Research on Green, Circular, and Digital Economies as Tools for Recovery and Sustainability explores new and emerging frameworks, tools, and strategies to support companies and economies toward a green and digital transformation. It analyzes the role of disruptive technologies, innovative green technologies, and emerging practices all over the world. Covering topics such as corporate sustainability, digital banking, and national innovation systems, this major reference work is an essential resource for educational administration, politicians, government officials, global business leaders, managing directors, libraries, researchers, academicians, educators, and students.

"Akashvani" (English) is a programme journal of ALL INDIA RADIO, it was formerly known as The Indian Listener. It used to serve the listener as a bradshaw of broadcasting ,and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August ,1937 onwards, it used to published by All India Radio, New Delhi. From 1950,it was turned into a weekly journal. Later, The Indian listener became "Akashvani" (English ) w.e.f. January 5, 1958. It was made fortnightly journal again w.e.f July 1,1983.

NAME OF THE JOURNAL: AKASHVANI LANGUAGE OF THE JOURNAL: English DATE, MONTH & YEAR OF PUBLICATION: 27 JUNE, 1982 PERIODICITY OF THE JOURNAL: Weekly NUMBER OF PAGES: 56 VOLUME NUMBER: Vol. XLVII. synthesis 6. Summer disorders AUTHOR: 1. Dr. T. M. P. Mahadevan 2. P. S. Bapna 3. Dr. Madan Lal Sharma 4. R. Kannan 5. Dr. Bailon D'sa 6. Dr. Balasubramanian Prasar

Bharati Archives has the copyright in all matters published in this "AKASHVANI" and other AIR journals. For reproduction previous permission is essential. This book presents mainly the geotechnical details of geomaterials (soils and rocks) found in all the 36 states and union territories of India. There are 37 chapters in this book. Chapter 1 provides an overview of geomaterials, focusing on their engineering properties as determined based on the project site investigations and laboratory/field tests; this will help readers understand the technical details explained throughout the book, with each chapter dealing with geomaterials of one state/union territory only. Each chapter, contributed by a team of authors, follows a common template with the following sections: introduction, major types of soils and rocks, properties of soils and rocks, use of soils and rocks as construction materials, foundation and other geotechnical structures, other geomaterials, natural hazards, case studies and field tests, geoenvironmental impact on soils and rocks, concluding remarks and references. All the chapters cover highly practical information and technical data for application in ground infrastructure projects, including foundations of structures (buildings, towers, tanks, machines and so on), highway, railway and airport pavements, embankments, retaining structures/walls, dams, reservoirs, canals and ponds, and landfills and tunnels. These details are also highly useful for professionals dealing with mining, oil and gas projects and agricultural and aquacultural engineering projects. Although this book covers the Indian ground characteristics, the information provided can be helpful in some suitable forms to the professionals of other countries having similar ground conditions and applications. In India, the eight states that border Myanmar, Bangladesh, Bhutan and the Tibetan areas of China are often referred to as just "the Northeast." In the Name of the Nation offers a critical and historical account of the country's troubled relations with this borderland region. Its modern history is shaped by the dynamics of a "frontier" in its multiple references: migration and settlement, resource extraction, and regional geopolitics. Partly as a result of this, the political trajectory of the region has been different from the rest of the country. Ethnic militias and armed groups have flourished for decades, but they coexist comfortably with functioning electoral institutions. The region has some of India's highest voter turnout rates, but special security laws produce significant democracy deficits that are now almost as old as the Republic. That these policies have been enforced to foment national unity while multiple alternative conceptions of the "nation" animate politics in the region forces us to reflect on the very foundations of the nation form. Sanjib Baruah offers a nuanced account of this impossibly complicated story, asking

how democracy can be sustained, and deepened, in these conditions. Routledge Readings on Law, Development and Legal Pluralism presents some of the finest essays on social justice, environment, rights and governance. With a lucid new Introduction, it covers a vast range of issues and offers a compelling guide to understanding the harm and risk relating to biodiversity, agro-ecology, disaster, and forest rights. The book covers critical themes such as ecology, families and governance and establishes the trajectory of contemporary ecology and law in South Asia. The thirteen chapters in the volume, divided into three sections, trace violence and marginality in the plurality of families and their laws in India, as well as discuss community-based just practices. With debates on development, governance and families, the book highlights the politics and practices of law making, law reform and law application. This multi-disciplinary volume foregrounds the politics and plural lives of/in law by including perspectives from major authors who have contributed to the academic and/or policy discourse of the subject. This book will be useful to students, scholars, policymakers, practitioners and the general reader interested in a nuanced understanding of law, especially those studying law, marginality, kinship and indigeneity studies. It will serve as essential reading for those in law, socio-legal studies, environment studies and ecology, social exclusion studies, development studies, South Asian studies, human rights, jurisprudence and constitutional studies, gender studies, history, politics, conflict and peace studies, sociology and social anthropology. It will also appeal to legal historians and practitioners of law, environmentalists, and those in public administration. The state of Meghalaya, formed on 21 January 1972, is a state of fascinating socio-cultural significance. Its heritage can be traced from the prehistoric times of Stone Age up to the present. Though comprising mainly of the matrilineal Khasi, Garo, and Jaintia tribes – the state also houses many other lesser known communities such as the Hajong, Sakachep, Biate, Koch, Dalu, Margnar and the Nepali. All these communities find voice in this volume. This book looks at the state of Meghalaya exhaustively from the perspective of heritage documentation and maintenance. The 38 chapters written by anthropologists and independent researchers, present the rich traditions found in the region. This volume will be of great help to academicians, researchers, students, and laymen interested in a comprehensive study of the region. Please note: This title is co-published with Manohar Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in South Asia. Our minds are a conglomeration of various abstractions. It's always at a constant war between feeling a certain way or not feeling a certain way, feeling too much, feeling too less, and a potpourri of various other vehemences. We never really stop thinking, do we? Our brain is always contemplating,

dreaming, imagining things even when we are asleep. Maybe this is why our minds are said to be Relentless. It never stops, never pauses. It constantly echoes, reflects the noises inside the labyrinths of our daedal minds. Echoes of the Relentless Mind, an effort, a compilation that tries to elucidate the various echoes of the human mind and present to you the various shades of emotions a person feels. Freshwater Fishes of the Eastern Himalayas provides a guide to describe the internationally accepted methods used in the accurate identification of fishes, morphometry, i.e., body proportions, meristics, i.e., counts of countable characters, viz., scales, fin rays, pores, vertebrae etc., characters of bones wherever necessary, special characters, viz., serrations of fin spines, axillary lobes, lobes, color patterns, etc. All the available taxa of the region are covered, making this an essential reference that provides the original description of genera and species. Diagnostic characters in the book can be easily examined by an unaided eye or by a binocular dissecting microscope with transmitted light. Provides diagnostic characters which are unique for a species or a combination of characters to differentiate each species from its congeners Includes both verbal and technical aspects, along with color illustrations of the particular part of the fish showing the distinguishing character Presents diagnostic characters, illustrations or images of the fish and of its parts, showing the unique character and distribution to make it easy for species identification This book studies how Development-Induced Displacement (DID) radically restructures gender relations in indigenous tribal societies. Through an indepth case study of the Indian state of Meghalaya, one of the few matrilineal societies of the world, it analyses how people cope with conflicts in their perception of self, family, and society brought on by the transition from traditional modes of living to increased urbanisation, and how these experiences are different for men and women. It looks at the ways in which this gendered change is experienced inter-generationally in different contexts of people's lives, including work and leisure activities. The book also investigates people's attitudes towards matrilineal structures and their perception of change on matrilineal structures where mining has played a role in building their view of their matrilineal tradition. Drawing on extensive interviews with individuals directly affected by this phenomenon, the book, part of the Transition in Northeastern India series, makes a significant contribution to the study of DID. It will be useful for scholars and researchers of urbanisation, gender studies, Northeast India studies, development studies, minority studies, public policy, political studies, and sociology. Oswaal NTA CUET (UG) Sample Paper, General Test +Question Banks Quantitative Aptitude, General Awareness & Logical Reasoning Book 2022 are Strictly as per the latest Syllabus and pattern of NTA CUET (UG) - 2022 based on MCQs The NTA CUET

(UG) Sample Paper, General Test +Question Banks Quantitative Aptitude, General Awareness & Logical Reasoning | Entrance Exam Preparation Book 2022 Chapter wise introduction to enable quick revision and systematic flow of concepts in Revision Notes on all subjects It comprises Latest 2021 solved Paper (3 Subjects) Quantitative Aptitude, General Awareness & Logical Reasoning Tips to crack the NTA CUET Exam 2022 in the first Attempt The NTA CUET (UG) Sample Paper, General Test +Question Banks Quantitative Aptitude, General Awareness & Logical Reasoning | Entrance Exam Preparation Book 2022 includes Valuable insights – tips, tricks and short Cuts Mind Maps to provoke new ideas The NTA CUET (UG) Sample Paper, General Test +Question Banks Quantitative Aptitude, General Awareness & Logical Reasoning | Entrance Exam Preparation Book 2022 helps to Boost Memory skills with Mnemonics QR codes for Digital Learning Experience This book re-examines the relationships between stakeholders, governance and corporate social responsibility. It address different aspects of these relationships from a wide international and interdisciplinary perspective. This book is about the utmost life experiences of Nacham and Amara. There were moments when they perceived that they couldn't do anything to make their dreams comes true. It might require a mountain to persist. Should they cling to the hope that they have when all hopes were lost in the dust, and dreams were shattered in the air? Well, inevitable forces will exist as long as hope exists, but can hope come alive at the worst of its existence? The book will help you find the answer to these questions. Get the Current Affairs 2022 E-Book and learn in detail about the important news, including National & International Affairs, Defence, Politics, Sports, People in News, MoU & Agreements, Science & Tech, Awards & Honours, Books, etc., of 2022. Applications of solar energy have been expanding in recent years across the world. This monograph details such far-reaching and important applications which have the potential for large impact on various segments of the society. It focuses solar energy technologies for various applications such as generation of electric power, heating, energy storage, etc. This volume will be a useful guide for researchers, academics and scientists. 2500+ MCQs Based on CURRENT AFFAIRS EVENTS & ISSUES 2020 with Complete Answer and Explanation for Competitive Exams IAS, PCS, SSC, Banking, Railway, Defence, CDS, NDA, Air Force, KVS+ Covers National & International • Polity and Governance • Economy and Finance • Social: Games & Sports, Films, Festivals, etc. • Ecology and Environment • Science and Technology • People A sweet friendship Refreshes the soul so every co author gave their best to refresh souls and mind of readers Let's be Truthful Academic success is a ticket to achieve occupational, social and economic success. But, to succeed, you need the knowledge, skills, tools and the heart for it. Because... Success is

an artwork, a creation, a masterpiece, a labour of passion. At the centre is, you. As a learner, you are the artist for your own success. You are the epicentre where all things begin. An artist cannot shape his vision and is next to almost nothing without his keen awareness, skills, tools, patience and his mission. Likewise, for you, if you are striving for academic excellence and life successes. The book is a powerhouse of data It contains data of over two decade's worth of knowledge, giving you inputs which you can apply in your studies or support you if you are working to achieve academic wellness, the short cut key to academic success. The book brings you closer to your learning environment including examinations with inputs which may change the way you learn, think, plan, prepare and write your examination to enhance your academic performance. This book endeavours to help you understand in totality the, what's, why's, where's and how's of learning, enhance your learning experience and enrich values. If you want to be successful in studies and desire to know how to get there. This book is for you.
