*Interdisciplinary Approaches to Human Rights* Mar 23 2020 *Interdisciplinary Approaches to Human Rights: History, Politics, Practice* is an edited collection that brings together analyses of human rights work from multiple disciplines. Within the academic sphere, this book will garner interest from scholars who are invested in human rights as a field of study, as well as those who research, and are engaged in, the praxis of human rights. Referring to the historical and cross-cultural study of human rights, the volume engages with disciplinary debates in political philosophy, gender and women's studies, Global South/Third World studies, international relations, psychology, and anthropology. At the same time, the authors employ diverse methodologies including oral history, theoretical and discourse analysis, ethnography, and literary and cinema studies. Within the field of human rights studies, this book attends to the critical academic gap on interdisciplinary and praxis-based approaches to the field, as opposed to a predominantly legalistic focus, drawing from case studies from a wide range of contexts in the Global South, including Bangladesh, Colombia, Haiti, India, Mexico, Palestine, and Sudan, as well as from Australia and the United States in the Global North. For students who will go on to become researchers, practitioners, policy makers, and activists, this collection of essays will demonstrate the multifaceted landscape of human rights and the multiple forces (philosophical, political, cultural, economic, historical) that affect it.

Women's Rights in the USA Nov 11 2021 In *Women's Rights in the USA*, Fourth Edition, Dorothy E. McBride again examines the policy debates critical to women in politics. Tracing the development of these debates over time in order to illustrate their historical context, McBride shows how these issues have evolved and how they have led to the policies and laws of today. She also examines the evolving attitudes of the feminists and advocacy groups behind these debates as they grapple with the tensions between the themes of equality and sex difference as they relate to women's rights. The book also looks at women's place in shaping the policies, statutes, and laws—from "liberal" activists to policy insiders—and how those roles shape the debates and issues that move forward today. In a broader context, by following these debates as they move through government institutions to become policies and laws, this book shows students the law-making process through issues that directly affect their lives. Of crucial significance is the acknowledgement that these debates do not end when court decisions, policies, and laws are made, but continue on to foster further movements, viewpoints, and political change. This fourth edition features updates on the most vital issues concerning women's rights today: constitutional equality, reproduction, education, family, work, work & family, regulation and intimidation of sexuality, and economic status.

**Gender Justice and Human Rights in International Development Assistance** Aug 20 2022 *Gender Justice and Human Rights in International Development Assistance* provides a critical analysis of how frameworks of gender equality play out in the field of international development assistance, at theoretical, international legislative and policy levels, donor and national policy levels and programme levels. If current dominant theoretical perspectives are not interrogated, the consequences could be that gender inequalities and injustices are inadequately addressed, or that opportunities are missed to impact on poverty reduction and on transformative gender changes. Through a renewed interpretation of gender equality in IDA, the book aims to show the way towards a more effective response to gender inequalities and injustices faced by women in developing countries. Drawing on 20 years of experience working with IDA policies and programming across three continents, this book makes an important contribution to the active and dynamic field of critical feminism, as well as providing practical illustrations on how such critical thinking might contribute to gender transformational changes. *Gender Justice and Human Rights in International Development Assistance* will be important reading for scholars and upper level students working in the fields of gender equality, human rights, development assistance, foreign affairs, international law, and international relations.

Financing for Gender Equality Jan 01 2021 This collection of essays addresses the glaring gap between policy commitments and actual investments in gender equality, ranging across sectors and focusing on development aid, peace-building and climate funds. Casting a spotlight on the application of gender-responsive budgeting in public budgetary policies, systems and processes, the contributions to this volume explore the chequered trajectories of these efforts in Africa, the Asia-Pacific, Latin America and Andalucía. Critiquing systems of finance, from adherence to neo-liberal macroeconomic fundamentals which prioritise fiscal austerity, the book makes a compelling case for reframing and re-prioritizing budgets to comply with human rights standards, with a particular view to realizing women's rights. The authors highlight the paltry funding for women's rights organizations and movements and examine the prospects for making financing gender responsive. The specific policy, strategy and technical recommendations and the connections across silos which articulate the authors' suggested operational levers will appeal to researchers, practitioners, students, policymakers, gender equality and human rights activists alike.

**The Logics of Gender Justice** Jul 27 2020 When and why do governments promote women's rights? Through comparative analysis of state action in seventy countries from 1975 to 2005, this book shows how different women's rights issues involve different histories, trigger different conflicts, and activate different sets of protagonists. Change on violence against women and workplace equality involves a logic of status politics: feminist movements leverage international norms to contest women's subordination. Family law, abortion, and contraception, which challenge the historical claim of religious groups to regulate kinship and reproduction, conform to a logic of doctrinal politics, which turns on relations between religious groups and the state. Publicly-paid parental leave and child care follow a logic of class politics, in which the strength of Left parties and overall economic conditions are more salient. The book reveals the multiple and complex pathways to gender justice, illuminating the opportunities and obstacles to social change for policymakers, advocates, and others seeking to advance women's rights.

**Gender, Alterity and Human Rights** Apr 04 2021 Human rights are axiomatic with liberal freedom. Yet more rights for women, sexual and religious minorities, has had disempowering and exclusionary effects. Revisiting campaigns for same-sex marriage, violence against women, and Islamic veil bans, *Gender, Alterity and Human Rights* lays bare how human rights emerge as a project of containment and unfreedom rather than meaningful freedom. Kapur provocatively argues that the futurity of human rights rests in turning away from liberal freedom and towards non-liberal registers of freedom.

Only Rape! Human Rights and Gender Equality for Refugee Women Nov 23 2022 This book charts the roller coaster ride taken by the authors over the past 33 years, in the ongoing fight to acknowledge, prevent, and respond to the rape and sexual abuse of women in conflict and displacement situations. They have worked with an international network of academics, refugee women, and human rights activists in 22 countries. The story moves between refugee camps and the United Nations, refugee settlements in cities and national governments. Theory and ethical research methods are an important part of the story. At times it is very confronting, sometimes amusing and often uplifting.

**Equality on Trial** Mar 03 2021 In 1964, Title VII of the Civil Rights Act outlawed workplace sex discrimination, but its practical meaning was uncertain. *Equality on Trial* examines how a generation of workers and feminists fought to infuse the law with broad notions of sex equality, reshaping workplaces, activist channels, state agencies, and courts along the way.

Gender in Human Rights and Transitional Justice Feb 14 2022 This volume counters one-sided dominant discursive representations of gender in human rights and transitional justice, and women's place in the transformations of neoliberal human rights, and contributes a more balanced examination of how transitional justice and human rights institutions, and political institutions impact the lives and experiences of women. Using a multidisciplinary approach, the contributors to this volume theorize and historicize the place of women's rights (and gender), situating it within contemporary country-specific political, legal, socio-cultural and global contexts. Chapters examine the progress and challenges facing women (and women's groups) in transitioning countries: from Peru to Argentina, from Kenya to Sierra Leone, and from Bosnia to Sri Lanka, in a variety of contexts, attending especially to the relationships between local and global forces

International Women's Rights Law and Gender Equality Jul 19 2022 The law is a well-known tool in fighting gender inequality, but which laws actually advance women's rights? This book unpacks the complex nuances behind gender-responsive domestic legislation, from several of the world's leading experts on gender equality. Drawing on domestic examples and international law, it provides a primer of theory alongside tangible and practical solutions to fulfil the promise of the law to deliver equality between men and women. Part I outlines what progress has been made to date on eradicating gender inequality, and insights into the law's potential as one lever in the global struggle for equality. Parts II and III go on to explore concrete areas of law, with case studies from multiple jurisdictions that examine how well domestic legislation is working for women. The authors bring their critical lens to areas of law often considered from a gender perspective – gender-based violence, women's reproductive health, labour and gender equality quotas – while bringing much-needed analysis to issues often ignored in gender debates, such as taxation, environmental justice and good governance. Part IV seeks to move from a theoretical goal of greater accountability to a practical one. It explores both accountability for international women's rights norms at the domestic level and the potential of feminist approaches to legislation to deliver laws that work for women. Written for students, academics, legislators and policymakers engaged in international women's rights law, gender equality, government accountability and feminist legal

theory, this book has tremendous transformative potential to drive forward legal change towards the eradication of gender inequality.

Gender and Human Rights Dec 24 2022 This unique book analyses the impact of international human rights on the concept of gender, demonstrating that gender emerged in the medical study of sexuality and has a complex and broad meaning beyond the sex and gender binaries often assumed by human rights law. The book illustrates which dynamics within the field of human rights hinder the expansion of the concept of gender beyond binaries and which strategies and mechanisms allow and facilitate such an expansion.

Human Rights, Gender and the Environment Oct 30 2020 In *Human Rights, Gender and the Environment*, the authors unravel the complex themes of human rights, gender, and the environment, basing their approach on the pivotal issue of inequality. All three themes manifest unequal relationships that exist between humans and between humans and the environment. It discusses human rights, gender issues in contemporary India, impact of socio-economic development on the environment and examines the specific issues of the environment in an international context and presents policies and movements in India.

**Legal Issues of International Law from a Gender Perspective** Jan 21 2020 This book offers a new perspective on international law, which was, for centuries, male-dominant and gender-blind. However, this gender blindness has led to many injustices, the failure to recognize certain rights, and to impunity for serious crimes. The book examines the development of gender perspectives in various branches of international law, while also discussing and explaining certain universal standards. However, particular attention is paid to the European human rights system. Accordingly, the book provides detailed explanations of the EU's external policies in relation to sex, sexual orientation, and gender identity. Also, there is a special focus on the relevant jurisprudence of the European Court of Human Rights in relation to gender and sexual orientation, female reproduction, and sexuality. The authors explain not only the importance of an adequate legal framework for combating gender inequality but also the detrimental effects of deeply rooted gender stereotypes and prejudices. Subsequently, the development of particular branches is presented, such as a gender-sensitive approach to the prevention of war crimes, gender perspectives in refugee law, and the evolution of gender-sensitive environmental law. In addition, the problematic situation of discrimination in the workplace is addressed from various perspectives. Many discussions, especially among EU member states, are reserved for the issue of women's participation in managerial boards, while the growing awareness of gender equality in international trade agreements represents another interesting topic. Lastly, the book offers a historical perspective on the development of international law in the interwar period, with a particular focus on the situation in Yugoslavia. The book critically reconsiders the dominant molds of legal knowledge and presents innovative gender-sensitive and gender-competent insights on a variety of issues in international law, in order to introduce readers to new research topics relevant to gender equality and to stimulate the development of an international legal and institutional framework for achieving greater gender equality in practice. The collection of essays presented here will be of interest to all those working in the field of international law, as well as students and academics looking to broaden and deepen their research on a range of issues in international law from gender perspectives.

**Gender Justice, Development, and Rights** Apr 23 2020 This text examines contemporary issues such as neoliberal policies, democracy and multiculturalism, analyzing them from a gender perspective. It examines how liberal rights and ideas of democracy and justice have been absorbed into the political agendas of women's movements.

**Gender and Law** Jan 13 2022 Women constitute a large portion of the economically active population engaged in agriculture. International instruments on human rights, the environment and sustainable development reaffirm the principle of non-discrimination on the basis of sex or gender. Yet women often face gendered obstacles in realizing their rights and feeding their families. This study analyses the gender dimension of agriculture-related legislation in a selection of different countries around the world, examining the legal status of women in three key areas: rights to land and other natural resources; rights of women agricultural workers; and rights concerning women's agricultural self-employment activities, ranging from women's status in rural cooperatives to their access to credit, training and extension services.

A Woman's Right to Culture May 25 2020 *A Woman's Right to Culture* is a new and insightful analysis of the usual meme that cultural rights in international law are at odds with the rights of women in affected societies. Rather than seeing these concepts as mutually exclusive, Linda Veazey frames cultural rights - through detailed case studies and analysis of law - in a way that incorporates and enriches the very gender-protective norms they are often thought to defeat. Adding a Foreword by University of Southern California professor Alison Dundes Renteln, the study makes the case, and supports it with illustrations over several continents and cultures, that the only way out of the dilemma is to have a gendered conception of cultural rights. The book, writes Renteln, "provides a novel interpretation of women's human rights. This superb monograph written by political scientist and human rights advocate Dr. Linda Veazey is cutting-edge research in sociological scholarship concerning the status of global feminism." Renteln concludes that the author "shows convincingly that scholars and advocates must take greater care in analyzing policy debates in the light of competing international human rights claims. In her engaging work, Veazey makes an important contribution to legal theory, public law, feminist studies, political science, and human rights scholarship. Her fascinating analysis of the interrelationship between women's rights and cultural rights will undoubtedly be considered a classic. There is simply no book like it." A new and important book in international human rights, and gender studies, from the independent academic press Quid Pro Books.

Gender Equality, Citizenship and Human Rights Aug 28 2020 This comparative volume examines the ways in which current controversies and political, legal, and social struggles for gender equality raise conceptual questions and challenge our thinking on political theories of equality, citizenship and human rights. Bringing together scholars and activists who reflect upon challenges to gender equality, citizenship, and human rights in their respective societies; it combines theoretical insights with empirically grounded studies. The volume contextualises feminist political theory in China and the Nordic countries and subsequently puts it into a global perspective. It tackles a complex set of tensions across a dense and shifting landscape and addresses issues including labour, health, democracy, homosexuality, migration and racism. By cutting across geographical and disciplinary boundaries, this book will be of interest to students and scholars of comparative politics, gender studies, human rights and also those interested in Scandinavian and Asian politics.

Mechanisms and Structures to Promote and Protect Women's Rights and Gender Equality Apr 16 2022

**Gender and Culture at the Limit of Rights** Dec 12 2021 An interdisciplinary collection, *Gender and Culture at the Limit of Rights* examines the potential and limitations of the "women's rights as human rights" framework as a strategy for seeking gender justice. Drawing on detailed case studies from the United States, Africa, Latin America, Asia, and elsewhere, contributors to the volume explore the specific social histories, political struggles, cultural assumptions, and gender ideologies that have produced certain rights or reframed long-standing debates in the language of rights. The essays address the gender-specific ways in which rights-based protocols have been analyzed, deployed, and legislated in the past and the present and the implications for women and men, adults and children in various social and geographical locations. Questions addressed include: What are the gendered assumptions and effects of the dominance of rights-based discourses for claims to social justice? What kinds of opportunities and limitations does such a "culture of rights" provide to seekers of justice, whether individuals or collectives, and how are these gendered? How and why do female bodies often become the site of contention in contexts pitting cultural against juridical perspectives? The contributors speak to central issues in current scholarly and policy debates about gender, culture, and human rights from comparative disciplinary, historical, and geographical perspectives. By taking "gender," rather than just "women," seriously as a category of analysis, the chapters suggest that the very sources of the power of human rights discourses, specifically "women's rights as human rights" discourses, to produce social change are also the sources of its limitations.

**Gender, Culture and Human Rights** Sep 28 2020 In recent years, feminist theory has increasingly defined itself in opposition to universalism and to discourses of human rights. Rejecting the troubled legacies of Enlightenment thinking, feminists have questioned the very premises upon which the international human rights movement is based. Rather than abandoning human rights discourse, however, this book argues that feminism should reclaim the universal and reconstruct the theory and practice of human rights. Discourse ethics and its post-metaphysical defence of universalism is offered as a key to this process of reconstruction. The implications of discourse ethics and the possibility of reclaiming universalism are explored in the context of the reservations debate in international human rights law and further examined in debates on women's human rights arising in Ireland, India and Pakistan. Each of these states shares a common constitutional heritage and, in each, religious-cultural claims, intertwined with processes of nation-building, have constrained the pursuit of gender equality. Ultimately, this book argues in favour of a dual-track approach to cultural conflicts, combining legal regulation with an ongoing moral-political dialogue on the scope and content of human rights.

**Human Rights and Gender Violence** Oct 22 2022 Human rights law and the legal protection of women from violence are still fairly new concepts. As a result, substantial discrepancies exist between what is decided in the halls of the United Nations and what women experience on a daily basis in their communities. *Human Rights and Gender Violence* is an ambitious study that investigates the tensions between global law and local justice. As an observer of UN diplomatic negotiations as well as the workings of grassroots feminist organizations in several countries, Sally Engle Merry offers an insider's perspective on how human rights law holds authorities accountable for the protection of citizens even while reinforcing and expanding state power. Providing legal and anthropological perspectives, Merry contends that human rights law must be framed in local terms to be accepted and effective in altering existing social hierarchies. Gender violence in particular, she argues, is rooted in deep cultural and religious beliefs, so change is often vehemently resisted by the communities perpetrating the acts of aggression. A much-needed exploration of how local cultures appropriate and enact international human rights law, this book will be of enormous value to students of gender studies and anthropology alike.
