"With a new introduction by the author"--Jacket. Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the

transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learn

- Build an intelligent machine translation system using seq-2-seq neural translation machines
- Create AI applications using GAN and deploy smart mobile apps using TensorFlow
- Translate videos into text using CNN and RNN
- Implement smart AI Chatbots, and integrate and extend them in several domains
- Create smart reinforcement, learning-based applications using Q-Learning
- Break and generate CAPTCHA using Deep Learning and Adversarial Learning

Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

Hanarejima's arsenal of emotions give the Confabulatorium an extra texture that is truly rare in literature these days. Nothing copycat here; no imitation; a defiant style that bucks the trend. This book has made me ecstatic for his emergence in a culture in dire need of such an authentic, fun, articulate and pretenseless voice. - Zachary Amendt, author of STAY and Open Concept, and the editor of FRESH

Inventive stories from a new talent to watch. Some of the shortest stories here have the most impact. This is a collection with a distinctive voice, and Soramimi Hanarejima is a writer to

add to your list. An impressive effort. - Matthew Salesses, author of *The Hundred-Year Flood* In this unique and charming debut, Hanarejima weaves vignettes of 'another world, intermingled with our own', where ideas come in standard sizes, and mental models are tangible... A visit to the confabulatorium is refreshing, rewarding - and recommended!

- Tasneem Zehra Husain, author of *Only The Longest Threads* From the absence of curiosity in "Mismanagement of Restlessness" to the diagnosis of "lazy mind's eye" in "Anisotropy," the reality unreality that exists in each story captures you, turns you around and then sets you down again, in the same place but different somehow. The stories in *Visits to the Confabulatorium* linger long after the last line is read, teasing you to return and travel along those lines again.

- Nancy Christie, author of *Traveling Left of Center and Other Stories* Soramimi Hanarejima's *Visits to the Confabulatorium* is undeniably humorous and philosophical and exuberantly contemplative.

- Eleanor Levine, author of *Waitress at the Red Moon Pizzeria* Stolen intuition. The sugar rush of sweet compliments. Traps set to capture the imagination. The frantic search for errant curiosity. Prescription glasses for lazy mind's eye. These things and more shape the lives of the characters inhabiting the fanciful stories in *Visits to the Confabulatorium*. With emotional honesty rendered in surreal circumstances, this collection invites readers into the quietly tangled terrain of interpersonal and intrapersonal relationships-a realm blending inner life with worldly consequences-where the reader can be simultaneously visitor and citizen.

?EMOVING??? The room darkens and grows hushed, all eyes to the front as the screen comes to life. Eagerly the audience starts to thumb the pages of their handouts, following along breathlessly as the slides go by one after the other... We're not sure what the expected outcome was when PowerPoint first emerged as the industry standard model of presentation, but reality has shown few positive results. Research reveals that there is much about this format that audiences positively dislike, and that the old school rules of classical rhetoric are still as effective as they ever were for maximizing impact. Renowned communications researcher, consultant, and speech coach Max Atkinson presents these findings and more in a groundbreaking and refreshing approach that highlights the

secrets of successful communication, and shows how anyone can put these into practice and become an effective speaker or presenter. Topics Include: DT How to win and hold the attention of audiences; DT Using visual aids and PowerPoint more effectively; DT Getting your message across and winning applause; DT Inspiring audiences; DT How to prepare quickly; DT Fact and fiction about body language and non-verbal communication "The 7 1/2 Habits of Highly Humorous People" is an easy and fun book to read. Meena Menon was The Hindu's correspondent in Islamabad till she was expelled by the Pakistani authorities in May 2014. In spite of her truncated stay, and the restrictions placed on her movements, Menon managed to write on a range of subjects covering swathes of life in Islamabad. She spoke to people from the persecuted Ahmadi community, covered protests, interviewed victims of bomb blasts, spoke to Partition survivors, visited the sprawling, crowded Afghan refugee camp on the outskirts of the capital, wrote about the Murree Brewery, and described political events, including the high-treason trial of General Musharraf. 200 cream pages with 6" x 9"(15.24 x 22.86 cm) size will let you write all information about your patients. Notebook with patient form. Eons ago, vampires tried to turn the Dark Fae in order to harness their magic, only to create a demonic enemy more powerful than they imagined. Now Myst, the Vampiric Fae Queen of the Indigo

Court, has enough power to begin a long prophesied supernatural war. And Cicely Waters, a witch who can control the wind, may be the only one who can stop her-and save her beloved Fae prince from the Queen's enslavement. This book is aimed to bring out the understanding of brand positioning of two wheelers in the minds of customers i.e., whether the customers have brand awareness, brand image, brand identity, brand knowledge about two wheelers which lead them to satisfaction. In turn, their brand preferences towards specific two wheelers among popular brands such as Hero, Honda, TVS, Suzuki, Bajaj and Yamaha were associated with brand positioning. I love entertaining and having parties, like most of you. And when I talk to fellow-hosts, I find that they are almost always worried about what snacks to serve the main course and desserts are easier to finalise! It so happens that after much thought they usually settle for common, tried-and-tested dishes such as Paneer Tikkas. Hmmmm, there will be a time when your guests would have had enough of it! Keeping this in mind, I present Kebabs and Tikkis A compilation of 61 delicious and innovative kebab, tikka and tikki recipes. For those of you who are willing to look beyond Indian snacks, I have also included a section of my all-time favourite international finger foods. Some of the kebabs have been deep-fried or cooked in ghee. You could shallow-fry these or use oil instead of ghee, so that you can rest assured on the health front too. And well, there is something for everybody, from the live-for-the-day eater to the more discerning health-conscious ones. In this book, you will discover yummy tikkis such as Mutter aur Phudine ki Tikki, Dahi Saunfiyani Tikki and Chick Pea and Soya Tikki, an array of mouth-watering kebabs such as Badam aur Arbi ke Kebab, Vegetable Shikampuri Kebab and Corn Seekh Kebab and a delectable variety of soft and creamy tikkas such as Pahadi Paneer Tikka, Makhmali Paneer Tikka and Tilwale Aloo ka Tikka. For those who wish for a taste of the world, there are international favourites such as Aloo Cheese Croquettes, Sweet Corn Balls and Paneer, Mushroom and Capsicum Satay. Accompaniments such as Phudina Chutney, Peanut Sauce and Chunky Vegetable Dip duly complement the snacks, enhancing

their appeal. Go ahead and put together one of the suggested platters or come up with an original platter full of your favourite recipes, Indian and beyond! That said, variety alone does not ensure that the starters/snacks served during your party become a huge hit with the guests. A major part of the planning involves combining these snacks appropriately into what is today popular-known as a "platter". Platters are a dominant phenomenon today they ensure guests a well-chosen selection of snacks replete with rotis, a salad or two and suitable chutneys and sauces. A well-planned platter is wholesome and nutritious and capable of serving as a meal in itself for the snack-lover (while serving as a starter for the rest). This book comes replete with 8 platter suggestions that guide you on how to serve your tikkis, tikkas and kebabs, and the accompaniments that we feel they would ideally combine with. These platters are based on specific themes. The next time you plan a party or are attacked by a sudden hunger pang, fret not, and just pull out this book. Prepare some of these easy-to-follow recipes and watch the platters empty while the diners' faces light up! Each recipe in this book has a beautiful image and each ingredient is linked to a glossary so that you never get lost. Happy entertaining,

This book addresses a perennial challenge for product planners and designers alike: how to objectively specify and quantify the aesthetics of products. It provides automotive product planners with a framework for the grammar of aesthetics and a tool for quantifying the aesthetics of an intended product. Further, it equips styling designers with a tool for connecting engineering and aesthetics. Given the author's extensive experience in motorcycle design, the motorcycle has been chosen as the frame of reference for automobiles. Specifically in the field of automobile design, where engineering and aesthetics go hand in hand, it also becomes important to clearly and objectively define the relationship between engineering design and aesthetics. Accordingly, this book (1) clearly establishes the objective parameters of aesthetics, (2) puts forward a method for quantifying aesthetics, (3) identifies the engineering

rationality premise of modern economics is demanded. Why would anyone want to do something as dangerous as motorcycling? For those who love to ride, no explanation is necessary. For everyone else, there's *Why We Ride*. Designed as both an explanation for outsiders and an anthem for those within the fold, this new book presents the insights of Mark Barnes, PhD, a motorcycling clinical psychologist. As a popular columnist at *Motorcycle Consumer News* for more than 20 years, Dr. Barnes articulates the elusive physical, emotional, and interpersonal elements that make the world of the motorcyclist such a rich and exciting place. His wide-ranging text covers both sports psychology and the psychoanalysis of common riding experiences, including the results of Dr. Barnes' own empirical research. Heartfelt and thought provoking, here is a straightforward account of what makes real motorcyclists tick. Inside *Why We Ride*: What makes all the hazards and hardships of riding a motorcycle worthwhile to perfectly sane, intelligent, and responsible individuals

Insights from clinical psychologist and moto-journalist Dr. Mark Barnes Examination of the complex gratifications, relentlessly compelling passions, and deeply personal experiences that motivate motorcyclists Sports psychology, psychoanalysis of common riding experiences, and reflections on the author's personal journey as a rider Results of the author's own empirical research on the motives of motorcyclists Thought-provoking exploration of the human dimension of motorcycling Special section on how riders achieve the quasi-mystical state of "Flow," a concept currently at the center of modern sports psychology About the Book : - Founded in the late 19th century by the great industrialist and philanthropist Jamsetji Tata, the Tata Group has been a pioneer in such nationally vital industries as steel, hydroelectricity, aviation, and information technology; the history of the Group is in significant measure the history of India's industrial development. Horizons: The Tata-India Century, 1904-2004 commemorates the death centenary of Jamsetji Tata and the birth centenaries of two men who helped guide the Group's destiny: JRD Tata and Naval Tata. Illustrated with rare archival images as

well as spectacular contemporary photographs, the book interweaves the Tata story directly with the history of modern India, allowing the reader to make connections between two parallel narratives. About the Author : - Aman Nath has a Masters degree in history. Engaged in the restoration of historical properties now run as the heritage chain of Neemrana non-hotel Hotels, Nath has also been actively involved with India's contemporary art since the 1970s. Retail Management is the process which helps the customers to procure the desired merchandise from the retail stores for their personal use. It includes all the steps required to bring the customers into the store and fulfill their buying needs. Retail management saves time and ensures the customers easily locate their desired merchandise and return home satisfied. Fashion Retail Management gives insight into the principles of fashion marketing, retail buying and merchandising and imparts basic fabric knowledge - from fiber to fabric and fabric to garment. It gives an overview of the concept of visual merchandising and lays emphasis on customer relationship management, brand management and sales management. The various processes which help the customers to procure the desired merchandise from the retail stores for their end use refer to retail management. Retail management includes all the steps required to bring the customers into the store and fulfill their buying needs. Retail management makes shopping a pleasurable experience and ensures the customers leave the store with a smile. In simpler words, retail management helps customers shop without any difficulty. Retailing in any field tends to be an incredibly competitive process and customer-facing stores are perhaps one of the tougher forms of business to manage. There is a lot that can potentially emerge to trip up even the most experienced and diligent of retail business operators but with the right approach, there's also a huge amount that can be achieved. Here are 5

focus points that might be helpful if you're looking to improve the way you run your retail business and exceed your customer's expectations. Understand and Respond to What Your Customers Want Like a lot of tips, our first one here is rather more easily said than done but that, in a sense, is precisely the point. Retailers need to do whatever it takes to get to know their customers and to react to what they find out quickly. You might be able to tick over by offering the same products in the same way as a matter of routine but lasting success can generally only be built on flexibility and a willingness to change along with habits among your customers. Get to Know Your Competition Like every other business around, retailers do not exist in a vacuum and it is vital for all manner of reasons that company bosses are aware of what their rivals are offering. These days, retail competitors can come in many different forms, be it online or otherwise, and bosses should frequently take the time to get a sense of the experiences being offered elsewhere. Whether or not you decide to integrate certain ideas into your own operation, competitor research is essential because it lets you know exactly what you're up against and that information can prove to be invaluable. Invest in Your People The members of a retailer's workforce are the face of the business on a day-to-day basis and the way that they interact with customers is very important. Hiring the right people to join your team is a key starting point but the story can't stop there and providing quality training should always be high on the agenda. This goes for staff on the shop floor, as well as supervisors and managers. Always Look to the Future The past may well have a lot to teach us as business bosses but for retailers it's vital to focus firmly on the future. It's important not to dwell too much on prior successes or failures and to remain as objective as possible as you assess different situations and dynamics. Every experience is a lesson but a good retail manager will not be obsessed with what has gone before but will be quick to understand where opportunities may lie for the future. Be Ready for Anything One of the great things about being involved in retailing is the sheer variety of the challenges

it presents from week to week and year to year. For those in charge of retail companies or operations, there is a lot to be said for expecting the unexpected and being ready to react at all times. Ultimately, the aim should be to focus on solving one problem at a time and not wasting energy on figuring out who to blame when things don't go quite according to plan.
