Pearson Edexcel A-level Geography Student Guide 1: Physical Geography Jul 27 2020 Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced subject experts Cameron Dunn and Michael Witherick, this Student Guide is divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - Develop understanding of key concepts and terminology in key physical geography topics tectonic processes and hazards, landscape systems, processes and change (glaciated and coastal), the water cycle and water insecurity, and the carbon cycle and energy security. - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - Build understanding of the different question types, so that students can approach each question with confidence. - Enable students to target top grades in their exam paper with sample answers and commentary explaining exactly why marks have been awarded.

It requires Android OS 3.1-4, a 7" or 10" tablet, or iPad iOS 5.0 or later. From reviews of the book: "The structure of the book is great. [The authors use] language that helps the reader become engaged and invites them to start applying what they have learned to their situation immediately. The examples of the journal articles with the notations are very helpful and we use these for discussion in the class quite a bit. I also like the 'reviewing what we've learned' and 'practicing your skills' at the end of the chapter. I much prefer the consumer approach of this text over others on the market." -- Candyce Reynolds, Portland State University "Understanding Research is true to its name; it is much more user friendly, it explains WHAT research IS. It does an EXCELLENT job of covering all of the material I currently cover. [The authors] (fortunately) force me to provide a balanced, comparative description of both [quantitative and qualitative] research. . . . I find the writing style to be clear, interesting and engaging." -- Carol A. Including Students with Special Needs Mar 03 2021 This volume offers practical strategies for teaching students with special needs in inclusive settings. The authors provide examples and vignettes, emphasizing teaching methods that promote student independence at all education levels. The textbook is divided into three main sections. The first section provides fundamental background knowledge of the field of special education as well as current knowledge of how students with disabilities are served within inclusive school environments. In the second section the characteristics of students with disabilities and other special needs are examined. The material in the third section of the text represents the crux of any course on inclusive practices: instructional approaches that emphasize teaching students effectively, regardless of disability or special need.

To order the Enhanced Pearson eText packaged with a bound book, use ISBN 0134057236. For courses in Curriculum in Early Childhood (Early Childhood Education), Ages 3-8 Readers see clearly how children learn; what children can learn; and the specific concepts, ideas, and strategies that are developmentally appropriate for young children. Reader friendly and filled with examples, anecdotes, and practical hands-on strategies, activities, and lesson plans, A Practical Guide to Early Childhood Curriculum offers pre- and in-service teachers specific help for planning, designing, and implementing effective early childhood curriculum for ages three through eight. Here the authors emphasize how to teach, while providing a solid foundation for the theoretical basis of the concepts being applied. Teachers see clearly what can be taught to young children, why it is important, and how it can be accomplished. The emphasis is on the importance of a child-centered curriculum that encompasses the whole child-physical, social, emotional, creative, and cognitive-and the focus is on the developmental needs of the children in the classroom, the cognitive areas of the curriculum, and effective methods of curriculum implementation.
