***Is this an entertaining book? The Practical Mariner's Book of Knowledge is either the most useful boating book ever designed to entertain or the most entertaining book ever designed to be useful. In its alphabetical organization that juxtaposes wildly disparate entries, you can read about the derivation of fi gureheads where you turned to for recommended thicknesses of fiberglass hulls. In between the whimsy, however, is the essence of centuries of seafaring experience distilled into a concise reference for sailors and powerboaters. There may be no substitute for a lifetime of experience, but this book is the next best thing. It should be kept at the navigation station and on every boat. Inside you will find information that is otherwise scattered through dozens of volumes. If you can't find what you want quickly from the table of contents, there's an exhaustive subject index. If you need more precise data than a rule of thumb can provide, you may very well find it among the 16 appendix tables, which are also indexed. You'll find rules of thumb for: Changing a boat's name Towing the safest way Burial at sea Preventing wood rot***

***Hull thickness Anchoring rights Jib size Curing mast vibration Time taken for boat tasks Survival rations And a lot more: open it up and get lost in the sage advice and witty wisdom that will make you long for the sea. "The perfect, practical gift to give or receive." -- The Ensign "... reads like a lively conversation with a friendly, seasoned pro." -- Lakeland Boating Beginning in 1924, Proceedings are incorporated into the Apr. number. Thirty years of seafood wisdom have been gathered into this cookbook and guide for cooks who want to know more than just how to bake or fry fish. Included are more than 160 original seafood recipes developed by the dedicated testers and tasters of the Seafood Lab kitchen in Carteret County, N.C. Between these covers is the essence of centuries of seafaring experience, distilled into a concise, alphabetically organized reference for sailors and powerboaters. You'll find rules of thumb for hull thickness, bottom paint coverage, estimating distances, when to hoist and lower flags, predicting weather, which colors are unlucky, rope size and strength, anchoring rights, making a rum punch, and a lot more. This is either the most useful boating book ever designed to entertain or the most entertaining book ever designed to be useful. Open it to any page and browse awhile. You'll see. The only rules-of-thumb compendium for boaters, updated with 45 new entries to delight, entertain, and most importantly, inform. These are tried and tested rules of thumb--the distilled essence of centuries of seafaring experience--providing succinct answers to the questions most-asked by boaters. "The perfect, practical gift to give or receive." -- The Ensign "...reads like a lively conversation with a friendly, seasoned pro." -- Lakeland Boating "All in all it is refreshing, and it is often a giggle. But most importantly, it is always helpful--very helpful." -- SA Boating About the Book A concise, alphabetically organized reference for sailors and boaters. New edition includes over 460 concise entries on diverse topics such as: hull thickness,***

*estimating distance, anchoring rights, making a rum punch, stability as assessed by roll times, and hallucinations, occurrence of. This updated to provide a new generation of boaters with an instant reference like none other. This is either the most useful boating book ever designed to entertain, or the most entertaining book ever designed to be useful. Features Unusual, engaging, and practical collection of information not found anywhere else Format is concise and trim, and packs well aboard, as a print book or ebook Alphabetic organization makes navigation easy, as does the exhaustive index Wit and wisdom of some of the entries ("Fear, Widespread Occurrence of" and "Useless Articles on a Boat, the Three or Four Most") combines nicely with practical emphasis on others ("Fiberglass, Drawbacks of,") Comprehensive appendix of useful forms, tables, and measurements (tank capacity, rope strength, power of attorney for a cruising couple) Includes Vigor's now, well-known and often referenced "Black-Box Theory" About the Author A journalist who has worked for major daily newspapers in Great Britain, South Africa, and the United States, John Vigor is a former managing editor of California-based Sea magazine. A certified sailing instructor and a former national dinghy-racing champion in South Africa, he has raced, cruised and written about boats for decades. He has sailed more than 10,000 ocean miles on small boats and in 1987 voyaged from South Africa to Florida with his wife and teenage son in a 31-foot sailboat. He is the author of 12 boating books, including Small Boat to Freedom (Sheridan House) and Things I Wish I'd Known Before I Started Sailing (Sheridan House), national winner of the prestigious John Southam Award , The Seaworthy Offshore Sailboat (McGraw-Hill), and The Practical Encyclopedia of Boating (McGraw-Hill). He lives in Bellingham, Washington. He writes a blog which can be found at <http://www.johnvigor.com/>. With a historical introduction and detailed descriptions of 65 mariner's astrolabes. All*

***astrolabes described are illustrated on full pages. Richly illustrated. Vintage marine outboard motors 30 horsepower and above produced from 1969-1989.***
