The Oxford Handbook of International Cultural Heritage Law Aug 26 2020 This Handbook provides a cutting edge study of the fast developing field of international law on the protection of cultural heritage by taking stock of the recent developments and of the core concepts and current challenges. The legal protection of cultural heritage has come under renewed focus from the international community and states since the 1990s. This is evidenced by the adoption of a range of international instruments. Countries are also enacting cultural heritage legislation or overhauling existing laws within their own national territory. Contributions address the protection of immovable and movable, tangible and intangible cultural heritage in peacetime and in the event of armed conflict as well as the interaction between specific regimes of cultural heritage protection with other fields of international law, including international criminal law, human rights and humanitarian law, environmental law, international trade, investments, and intellectual property. The last part of the Handbook covers diverse regional systems of heritage protection.

*ETINED - Volume 2 - Principes éthiques* Feb 18 2020 La corruption dans l'éducation est aujourd'hui un sujet de préoccupation à l'échelle mondiale qui concerne l'ensemble des Etats membres, à tous les niveaux de l'éducation. Il y a actuellement une prise de conscience générale des effets néfastes des comportements contraires à l'éthique dans le domaine de l'éducation à tous les niveaux et dans tous les pays. Si les principales parties prenantes s'accordent sur la nécessité de combattre la corruption dans l'éducation, les avis sur les moyens à mettre en oeuvre divergent encore. Sur quels principes éthiques fonder une politique éducative dans l'Europe d'aujourd'hui ? Comment parvenir à une réelle éthique, une transparence et une intégrité au sein des établissements scolaires et des universités ? Quelle approche devrait-on favoriser pour contrer les différentes formes de corruption qui affectent, à des niveaux divers, le secteur éducatif ? Cette publication tente d'y répondre, en présentant les 14 principes éthiques pour l'éducation, proposés par la Plate-forme du Conseil de l'Europe sur l'éthique, la transparence et l'intégrité dans l'éducation (ETINED), ainsi que leurs sources et leurs champs d'application.

*Handbook of Research on the Role of Libraries, Archives, and Museums in Achieving Civic Engagement and Social Justice in Smart Cities* Jan 31 2021 In achieving civic engagement and social justice in smart cities, literacy programs are offered in the society by three essential information service providers: libraries, archives, and museums. Although the library and museum services are documented in literature, there is little evidence of community-led library or museum services that make a full circle in understanding community-library, community-archive, and community-museum relationships. The Handbook of Research on the Role of Libraries, Archives, and Museums in Achieving Civic Engagement and Social Justice in Smart Cities examines the application of tools and techniques in library and museum literacy in achieving civic engagement and social justice. It also introduces a new outlook in the services of libraries and museums. Covering topics such as countering fake news, human rights literacies, and outreach activities, this book is essential for community-based organizations, librarians, museum administrations, education leaders, information professionals, smart city design planners, digital tool developers, policymakers engaged in diversity, researchers, and academicians.
